February 5, 2008

Dear Editor:

Roughly two members of our military die in the war and occupation of Iraq every day. However, the news of the war seems to have faded from our headlines. There is a brave group of Iraq and Afghanistan war veterans who are standing up against this war.

March 13 - 16, in Washington D.C., veterans from the war will participate in the "Winter Soldier: Iraq and Afghanistan" to speak out about what they have seen and done in Iraq and Afghanistan. This is reminiscent of the original Winter Soldier Investigation by Vietnam veterans in 1971.

It's time to turn our attention away from Hollywood happenings and long election campaigns and back to the fact that both members of the U.S. military and Iraqi citizens are dying and struggling on a daily basis - and we have real veterans who can tell us first hand about these struggles. Members of the \_\_\_\_ community want to learn about Winter Soldier. Our expectation is that you cover this important and historic event.

You can learn more about the Winter Soldier Campaign at [www.ivaw.org/wintersoldier](http://www.ivaw.org/wintersoldier) or call the Veterans For Peace National Office at 314-725-6005.

Sincerely –
