Executive Director Report – 9:22 AM MST
- Michael briefs the meeting on his report as provided in print; Christine Assafe hired as Administrative Assistant in the national office; accountant has to finish up December numbers; in February third week, we will have our reviewer/accountant review our books; the numbers from last year will change based on adjustments to be made; we raised over $850k last year total; further briefing of the report as provided in writing
  o Barry: what are the projections based on?
  o Michael: based on what we can do
- Michael: will have to work hard to increase major donors; we’ve never gotten a hundred grand in major donors before, unless it’s been a bequest; we need to make sure we get that this year; if we get Craigslist donation again, we’ll be halfway there; correction – Craigslist is a grant, it comes to us as a donation from Craigslist organization
  o Mark: is it safe to assume we’ll keep getting the Craigslist donation
  o Michael: we should reach out to him, but no we shouldn’t assume, but take action; work hard to get it; never assume that you will get a grant, because
foundations change their focus and you can’t rely too much on that grantor; Magic Pebbles grant has been received

- Patrick: with Trump’s election, we ought to craft something that can use his election to increase membership; everyone on the Board should be a recurring donor so we can model that behavior to our members
- Barry: agreed, no matter the amount; tell Doug Zachary that we want to donate every month
- Patrick: brief comments on chapter members who are not paying national dues; we should pay attention and re-up that conversation with our chapters
- Brian: what about using the term “sustainer” rather than “recurring.”
- Barry: term helps distinguish that you are helping to sustain the organization
- Michael: we need to re-look at some category names that we already have; Michael presents the membership level names according to list on national website; these levels have been around even before I came to VFP; we can redesign these levels to be more current; when a person renews membership and they want to give more and have a title attached to that gift; we should probably publish these people’s names with the titles
- Further discussion on membership levels and redesign
- Patrick: we should encourage chapters to get their members to pay national dues; we should refer this discussion to the development committee
- Michael: eTapestry system used to handle donations, we have to get them to make the changes and they charge us; we are looking to move away from eTapestry, shouldn’t take moving away from donor database lightly
- Mark: possible to get rid of the term “recurring” and just use “sustaining,” could be confusing

- Michael: briefing on membership number changes according to report in print
  - Gerry: discussions on dues, keeping lapsed members on rolls, in membership committee
  - Michael: payment to organization is a measure of commitment; some lapsed members just forget, but after so many years, they just don’t have the commitment
  - Patrick: recommit to IVAW, they have good leadership right now; have organized with IVAW in last few months; be more conscious of working with them

- Michael: briefing on 2017 budget proposal as provided in print; GR does do fundraising, but it’s not a systemic effort; the GR should send out mailings and monthly appeals online; we should follow up those paper appeals with email appeals; it’s a way to spur and remind people to send in the donation when they receive the email appeal; Program Associate can help make those things happen; still looking for candidates
  - Mark: possible to change name to Program Coordinator?
  - Michael: Helen Jaccard is the current GR Coordinator, the new position would not be coordinating many activities; we can discuss

- Michael: in the past, we have a base salary for staff, and then I asked them what the ACA would cost them, and we would put that on top of their base; we wouldn’t call it for healthcare, they can use it for whatever they want; Program Associate is full-time,
would rather they reside in St. Louis but we can consider work ethic in that regard; considerations regarding how VCI campaign went; consider closer supervision for coordination; would like to work closely with person on day-to-day basis
  - Barry: inquiry into VCI campaign coordination based on rest of grant left over
  - Michael: coordination and field workers will change, need to get more structure with it and fundraise for more funds for campaign; we should have brought in IVAW much earlier; find places to work together; work closer with local VFP chapters and hire their leaders as their leadership capabilities emerge; further comments on how to engage more chapters in campaign; have new staff member cultivate the work of the chapters; reach out to signers of VCI statement and cultivate their action, tie those veterans closer to VFP; see if there are some of those people close to each other to work together, or work closer with Muslim communities in their areas; reconstitute the Islamophobia committee
  - Patrick: has anything been done with VCI since the NY event last fall?
  - Michael: yes, they continued to do outreach
  - Brian: working with Vets Vs Hate and Common Defense
  - Monique: there is still a lot of VVH and VCI actions going on; not at the same level of 2016, but still a lot going on
  - Michael: considerations on working relationships between IVAW, Common Defense, and Beyond The Choir; a lot of stuff going on; we’re not all working together because of competing directions and funding
  - Gerry: we have a new bylaw passed by the membership requiring that we ensure that we aren’t seeking or taking funds from sources inconsistent with our principles and unity; Soros controversial; afraid that we will ignore that bylaw change considering new grant proposals
  - Brian: is Program Associate a one-year contract position? Will it then be optioned to continue with new funds?
  - Michael: yes, tell them we have funding for one year, and continue if we get the funding; unless the Board decides that the funds we currently have would go towards position for two years, but continue to fundraise to make up the difference; the GR half of the funds would suggest that we want to continue to do that into the following year
  - Mark: from what Gerry brought up, real concern; Board needs to make a decision regarding taking more Soros funding
  - Michael: not asking the Board to go after OSF funding; just looking at funds we have; going forward, we should have that discussion; but right now for this position is money we already have
  - Tarak: potential candidate for position is great writer, progressive, currently looking for work, would love to work with VFP
  - Michael: further briefing on report as provided in print; take half of the OSF grant left, use for travel and programming for VCI; would want that person to travel to California to meet face-to-face with Helen and tour the GR boat
- Tarak: met with Ralph Nader aid and he’s excited to help with outreach to WWII and Korean War veterans
- Michael: have different levels of recognition regarding Howard Zinn Peace & Justice Builders; motivate people to attain levels of giving; Barry to draft letter to send to associate members for Memorial Day
  - Barry: ask members to report on why they decided to reactivate dues and get quotes from them to share
  - Brian: very good to see those on social media
- Michael: many chapters have tabling events and they get names to sign, but those names don’t always get input into database; have them mail those names to us; added money to budget to have someone come in and take those lists and input into database, and then send back to chapters; we can use them to reach out to people who signed; figure out how to get donations from that process back to chapters
  - Barry: clarify on engaging store customers who are not members
  - Michael: reach out to them; Casey is doing a good job increasing products and sales from the store; have more product that is appealing to non-members; if they buy something from us, get them to donate to us also; reach out to artists and pay them to create designs for us; one design is related to Banksy style street art; take that style and have civilians painting the VFP logo, put it on a tee shirt and sell it to supporters of VFP
  - Further discussion on design ideas, potential artists for designs; potential product ideas
  - Barry: do we count donations-in-kind with donations in the budget? How is it accounted for? Michael to explore question
- Michael continues briefing of report as provided in print
  - Guest: have gotten calls from office asking me to renew dues, is that ongoing? Very effective
  - Michael confirms Doug Zachary makes the calls
- Michael briefs the meeting on national office breakdown and planning for Our Work document and strategy, presents photo slide to meeting; campaigns have a change component, educational component; need to go beyond the choir; have big swath of people who will come with us, or go in another direction; the other side is active and gaining membership; in order to get those people who could be swayed, we have to engage with them beyond the choir; coordinate more nationally; a lot of work being done but not coordinated; doesn’t mean there is centrality, but have a similar message; uplift VFP’s core messaging – PAHPA and Peace Is Possible, culture of peace
  - Tarak: all of those goals are encompassed in Peace In Our Times newspaper; great tool for use by chapters and members to spread message in hard copy; chapters do not access this tool, have to figure out how to get active chapters to start using it
  - Barry: send copies to chapters to show them the tool; once they read it, they see the value of it
- Michael: legislative priorities briefing; considering attempts to privatize VA, we should focus in regards to ACA; deported veterans as priority; Agent Orange campaign active in
terms of legislation; People’s Budget actually has elements calling for reduction in military spending, and has been in Congress with Progressive Caucus for many years; doesn’t have to made up because they do it every year; will be used more this year because of opposition to current administration; nuclear weapons, and figure out what specific legislative possibilities are; and militarization of borders and police, will become more acute over next four years

- Patrick: I think it’s important for us to focus on key tasks, it’s also important to have more astute political discussion; briefs meeting on discussions; how to make importance of Vietnam era story relevant beyond older veterans; Peace Is Possible message undermined by pessimistic speeches at convention

- Gerry: new bill to be aware of, in House and Senate; basically a no-first strike bill with nuclear weapons; should be focused on it

- Barry: use it as focal point for our campaigns

- Brian: talking with Senator in Oregon to do a companion bill

- Gerry: Tulsi Gabbard’s bill should be added to our legislative agenda

- Guests: ABQ is ground zero; have nuclear testing sites and national nuclear laboratories right here

- Gerry: director of Sandia Labs is pushing Trump for greater nuclear capabilities

- Michael: further briefing on photo slides for planning campaigns based on Our Work document; active versus inactive campaigns; isolated campaigns meaning that there is work but not coordinated nationally; maybe no working groups, for instance; focus on developing Pivot to Pacific/Korea Peace Campaign, could become much hotter issue; with the Military Voices For Peace, that’s the idea of creating our speaking tours, raising VFP visibility; lots of activity with Trump administration, and some activity will duplicate; there’s no one who can compete with VFP; because we have a mostly older veteran segment, we have a different look and different audience; play to our strength, get our message out; it’s a major campaign tied to membership; start conversation with groups; we can influence groups we talked with and it helps those groups develop as well

- Tarak: what’s holding up the speaker’s bureau; great speaking tour with Rory and Mike Hanes

- Michael: people gotta get together and figure out how to make it happen; need to be focused instead of members going off and doing their own thing not connected to our campaigns

- Barry: focus on chapter areas; chapter members can give good presentations in their own areas; cater speakers and topics to the audience and demographics; encourage local chapters to do outreach

- Tarak: San Diego is one of the strongest chapters in the country; not all chapters can do that, don’t always have the people

- Barry: show them how they can do it; take a regional area and have Board members visit those regions and encourage the chapters to join in

- Michael: providing materials, we’re working on it in the office; do need to have a national speaker’s bureau, but also support and push chapters to do it locally; if we have conference calls nationally to talk about direction and priorities, and tell
chapters what we are doing and achieving, and provide resources, then we’ll get the momentum

- Mark: public speaking is a fearful thing for many humans; a small percentage is really good at it; good idea to try to educate chapters and give them resources and materials; reality is that they don’t have the speaking skills; a speaker’s bureau is a good role model for chapters; national speakers attract larger group than locally known speakers; maybe both at the same time; put emphasis on the national bureau

- Brian: like both ideas, we can do both; when I was involved with Peace and Justice Studies Association, they created list of names for others to use as contacts; volunteers contributed to the bureau and made themselves available, and listed their specialization; draw from this list

- Tarak: ideas can be combined; but to get it going, we need a committee that actually puts it into practice; the northeast region is loaded with speakers; we need to set aside some funds for this; chapter speakers can be coordinated into the overall speaker list; get people who are willing to get it going

- Patrick: committee is the first step; Bill Collins former board member, he did lots of work on the speaker bureau; include him in the committee; in college, we did speaker bureau’s and we brought people up from other states and the college paid their travel; create a glossy brochure highlighting key speakers who can be paid honorariums

- Barry: one thing we can do locally is to market availability; many clubs are looking for folks to come and speak every month; chapters can send out notifications to be available to speak at monthly meetings of different local clubs; can’t wait for people to ask us; we have to go out and get them

- Monique: agree with the speakers bureau and ability to do both; encourage it to be as diverse as possible; on the local level, our ABQ chapter is not very big and I’m the youngest in the chapter; important to me to pursue Truth In Recruiting; I visit schools constantly; as part of a coalition organization meeting, I spoke there and two teachers invited me to speak to their students; I’ve spoken to third graders; it’s not about perfection, but do what works

- Dan: in the Women’s March, there was a lack of female veterans speaking at the events, at least in my town; women of color leading that movement; I work with many organizations who organized it locally, but they didn’t call us to get women veterans to participate; we can promote this with the speaker’s bureau; and we can have associate members speak on these issues as well

- Gerry: reinforce the idea of the local chapters being empowered to do this; if we really push this, it could become our major organizational focus for this period of time; increase recruitment; will be a lot of veterans out there now who were active in past or never active, and want to be active again; if we are there, we will really grow; should involve speaker trainings, could provide it and it would be attractive to new members and potential recruits; we will show them how to use their veteran voice to get out there and be relevant; go full force, big organizational push; so few things we do that involve all chapters, they don’t
always talk to each other, feeling isolated; this will give the organization more of a sense of a nationally networked org

- Kourtney:
  - Guest: make this a topic at the next convention; emphasize it with the hundreds of members attending the convention
  - Barry: have a workshop at the convention on speaker training

- Michael briefs on progress of discussion; speaker’s bureau is not easy, national will probably be easier to organizing local speakers; but we make the most money at the local level because we reach the most people and chapters gain new members; at the local level, we are reaching out to them, going to places they don’t expect us to show up; in order to make local effort successful, we have to provide training and resources; many people don’t realize the skills they already have; provide a template; if there is ever a time to step outside of comfort zone, now is the time; provide examples; develop the committee to make this thing happen; we need funds for the training; provide a basic place where people start out from; diversity is really important, have the local chapters really thinking about cultivating diverse speakers; organize the training at the convention
  - Barry: some people may claim they aren’t versed on the issues; chapters can use their meeting time to cultivate speakers, provide briefings on their special issues; ask the workshop and working groups developers at the conventions to provide materials from their topics to the bureau
  - Board members express interest in providing seed money to budget for speaker’s bureau; materials, trainers, travel

- Michael continues briefing on photo slide planning as provided – reforming VFP working groups; not necessarily saying we should reform the movement; come up with what we want to do, our specific messaging; working groups priorities include drones, before you join/ truth in recruiting, war resisters, nuclear non-proliferation, pivot to pacific, Korea peace campaign, and Palestine/Israel; what is the visibility of the campaigns, needs to be more coordinated and leveraged; what is the legislative change component; visibility does not necessarily change the problem; who are the levers in D.C. to pull to make the change; we as an organization need to identify the buttons to push, and how to push them
  - Barry: went to Seoul, Korea and met with members there, they were excited; need to engage with these campaigns; don’t want to dismiss these connections
  - Gerry: how to address the U.S. policy with North Korea and potential for nuclear catastrophe; Korea Peace Campaign attempting to address it; have to overcome these problems and be proactive; make the working groups real and democratic; surround them with good people to make it work
  - Michael: have clear ideas of what we are trying to do; how do these pieces fit together
  - Patrick: at the convention, what about having a session or workshop that addresses our working teams, that are organizational and not necessarily educational; a working group meeting; we don’t do good enough follow-up
- Tarak: there are other groups with whom we are friendly, who do great work in these areas; in attempting to leverage to reach goals, beyond VFP, working with these groups
  - Michael: continues with report; pay attention to culture in VFP; turn activists into organizers; not the same thing; move beyond the choir
  - Gerry: our work against current and threatened wars; many movements not focused on wars; we should make those connections; what are the current and threatened wars; Afghanistan is the longest running U.S. war ever; have to continue to vocally oppose and expose what’s going on there now; we need to come up with a more sophisticated analysis of these wars, including the war against terrorism and ISIL
    - Michael: years ago I talked about how the wars could become normalized; our longest war is Iraq, we’ve never really left
  - Michael: Trump contingency plans; right now he has his own focus, but at some point his administration will start focusing on activists and peace movement; could include IRS audits and other things; how to tell this to our chapters and national organization leaders; not caught unprepared when it happens
    - Monique: with the new executive order and Muslim bans, Trump will declare Muslim Brotherhood as terrorists, will affect CAIR and other orgs
    - Michael: maybe the Iraq Water Project will be affected as well
    - Dan: very important in regards to how to talk to our chapters and members; how to train our leaders and members to stand up for other movements
    - Barry: create a form that our members and chapters can use to have their audience complete and gather the information to demonstrate our work

Barry breaks the meeting for lunch at 11:48 PM MST

Barry reconvenes the meeting at 1:10 PM MST

Monique Salhab introduces Sally-Alice Thompson, VFP Albuquerque Chapter founder

Barry briefs the meeting on the remaining agenda items.

Development Committee update
  - Barry: previous chair of the development committee; important element of organizing in VFP; Jim Driscoll, who helped with VCI campaign, has agreed to stay with VFP and assist with fundraising and development; will conduct training for board members during Saturday meeting; Dan Saint will also assist with fundraising and development, has lots of experience with major firms; will also assist with development committee meeting on Sunday after board meeting; need to make more effort to write grants and use the foundation search database; stressing personal contact with grantors and foundations; Barry consistent with making connections with Magic Pebbles grantors, communicating with foundations
    - Mark: Our Work document will help
    - Barry: sent document to Magic Pebbles foundation
Membership Committee update
 - Kourtney:

Howard Zinn Fund Committee update
 - Mark: briefs the meeting on the report as provided in print; became the liaison for the Zinn Committee and the board; at the time there was no grant program for the fund; protocols were created with good intent but without much experience as far as putting together the guidelines; in the beginning, the fund was granting up to three grand per year in small chunks of five hundred dollars; proposals at the time were incomplete, possibly because we were offering so little for the grants; there were four grant periods in the year; attempting to attract more serious proposals, this has worked; would like to increase the grant award limit to $5000 and the max number of awards given decrease to one per year; would like to eliminate the rule for chapters to contribute half of the requested amounts
  - Board inquiries into specifics of grant process
  - Mark: there is follow-up, they need to prove how they spend the money and what the results were
 - Patrick: with grant projects, should be a component for how it furthers VFP organizationally, as part of proposals, especially for larger grant awards
 - Mark briefs specifics on proposed changes to Zinn fund guidelines for awards; we’re finding out that $5000 awards are attracting serious proposals with real results, using it as a model for other chapters to see what can be done; would like to increase the principle to $50k; would like to vote on a certain amount to take from VFP treasury to give to Zinn fund; motion to change the language in the guidelines
  - Michael: this was written in 2012 in consultation with Zinn’s daughter, and she agreed; is it strategic for us to change it at this time; we can talk to Ken Barger and ask if he wants to reach out to her again; she gave us permission to use Zinn’s name on the fund; the ten percent amount kept some money in the fund; we should ready to put forth fundraising effort otherwise we will deplete the fund
  - Gerry: clarify on where the initial funds came from, and relationship with Zinn family; what’s the connection between this fund and the legacy of Howard Zinn; do we want to do something with that legacy and take full advantage
  - Michael: Zinn was a VFP member; daughter okayed the draft of the guidelines; we should find ways to use the family’s approval to raise money in a better way; we have to make connection to his legacy; the original money for the fund came from two places – Smedley chapter did a fundraiser, and there was a fundraiser in Hollywood that former VFP director Dennis Lane and Matt Damon organized; we should follow up with family, send them the reports for the fund
  - Patrick: how can the fund give a grant of five grand this year if they were only spending ten percent of thirty grand? Did they shift the guidelines? Mark confirms
Dan: make the proposal that we change the rules with caveat that we talk to Zinn’s daughter first

Barry: I would rather we be able to tell her what we decided already

Gerry: have some of my own concerns about the Zinn fund; great they are attracting quality proposals and granting larger awards; but my feeling is that most chapters cannot meet the guidelines for the Zinn fund; would rather see a two-tiered process; a number of smaller grants available with easier terms; wondering how many chapters can actually do this

Mark: they did grant one five hundred dollar grant; they are open to this idea; but they want to attract the big fish

Barry: issues with keeping track of more awards, it burdens the committee

Mark: Brian Sparks is now the new chair; Ken Barger is staying on the committee; and one other member of the committee; they are dedicated and spend amazing amount of time

Barry clarifies the motion: to adopt the rules for the Zinn committee as requested by Mark Foreman; call for second; Dan seconds

Barry takes the vote by affirmation; Barry confirms the approval of the motion by affirmation

Mark briefs on the second motion regarding the funds; the funds should be placed in at the very least a Certificate of Deposit without risk; some kind of interest bearing account

Dan: is there a continuing donor list to the fund?

Michael: no, we haven’t done any Zinn-specific fundraising for the fund

Mark: there was a donation of six grant to the fund

Gerry: should have some kind of sustainable fundraising effort

Michael: we’ve talked about a major donor campaign for the fund, to keep a certain amount going specifically for the fund; and then we can do a fundraiser specifically for the fund; we could raise a lot of money major donor wise, aside from VFP people; and we could raise money for the fund in a similar fashion; figure out who will do it; don’t want to put it totally in the committee’s hands;

Patrick: briefing on issues with grant process and communication with committee

Gerry: request to add funds should be coupled with a process on deciding how to raise funds for the committee in the future

Mark: committee has stated that they will handle the fundraising

Michael: I would like to know what their ideas are for fundraising; don’t want committee’s ideas of fundraising to conflict with our own

Barry: they should send us their ideas

Mark: if they are willing to do the fundraising, then we don’t necessarily have to take money from the treasury to add to the fund

Further discussion on actual language of motions and votes; clarifications on the language

Mark to clarify the language of vote in writing to present to the Board

Barry: need a motion to subtract the previous amended vote; motion made and seconded
Barry confirms rescinding the previous vote with the purpose of having the proposals presented in writing for a subsequent vote.

Barry breaks the meeting at 3:10 PM MST.
Barry reconvenes the meeting at 3:30 PM MST.

Barry calls for Closed Session at 3:31 PM MST.

Membership Conduct Case:
- Kourtney and Mark briefing
  - Gerry: follow the lead of the membership committee; he is potentially a danger to women in VFP, though I don’t know if there’s a history of his violence in VFP; his actions of the type that are his pattern could endanger women members and associates, but they could endanger the organization; no question that we should get him off our rolls.
- **Patrick: motion to vote to expel Kyle DeWolf from VFP for life; seconded**
- **Barry takes the vote; Barry confirms the vote is unanimous by affirmation to expel Kyle DeWolf for life from VFP**
- Mark and Kourtney to draft letter for Barry to sign and send to Kyle DeWolf for notification of Board’s decision to expel him.

Okinawa delegation issues:
- Tarak: Edo Sanchez actively attempting to derail delegation; is there something short of dismissal that can be sent to him to get him to stop; something like a cease and desist order?
  - Barry: we can explain to him how it’s not conducive to healthy organizing; but no protocol in the policy or bylaws.
  - Gerry: considerations regarding recent issues with Okinawa chapter; some attempts to heal the tensions between them and others involved; deeper context for this behavior; to censor him without coming to terms with that ourselves would be a mistake in my opinion; we need more time to deal with this.
  - Tarak: should also talk to Rachel Clark and some of her people; would also include Mike Hanes and Rory Fanning.
  - Gerry: a process of open examination and healing that needs to take place, before risking alienation of chapter; learn the lessons of the mistakes we have made; happy to help facilitate.
  - Michael: do you think that the historical split and tensions between the Okinawan Island and the Japanese plays a role?
  - Tarak: yes, but stronger with some people than others; problem was greatly exacerbated by some; both delegations were great, and we want to go back.
  - Gerry: Edo and Doug Lummis also had some legitimate grievances.
  - Dan: briefing on discussion with Edo regarding planning of delegation and response.
Veterans For Peace

Barry exits the meeting from Closed Session at 4:01 PM MST

Status of Working Groups report
- Gerry: likely the more dysfunctional part of our organization; need new criteria for how they function; need to establish requirements for being a working group; some groups are not active; need to rethink and reorganize the working groups, otherwise we will have a number of semi- or non-functioning groups
- Further discussion on status of specific working groups
- Barry: have working groups take on some issues, and then build a template and provide it for our speaker’s bureau organizing
- Gerry: original intent of working group were to provide resources; and also to suggest campaign ideas to the organization; do what we can to pump up the working groups that have potential
- Michael: bylaws says that the president can appoint the chairs of the working groups; we can write up new criteria for Gerry to review; need the board to have more oversight, specify the criteria; we should not have content on our website that is not functional

Finance Committee report
- Mark briefs on recent issues leading to necessity of financial oversight of chapters; Mark briefs on proposed change to policy manual regarding oversight of chapters; changes include having two people listed on chapter bank accounts, and hopefully at least two people will keep an eye on the accounts; issues regarding smaller accounts
  - Tarak: some chapters don’t have meetings but do have money in the bank; must discuss what that looks like
  - Further discussion on how to approach issue of funds within inactive chapters
  - Michael: reminds that if chapters don’t report for two or more years, they are stripped of tax-exempt status; chapters generally have to obtain their own EIN, but they do use our 501 c (3) status
- Mark: further briefing on proposed policy changes
  - Kourtney inquires about reasoning for dollar amount required for chapter reporting; Tarak suggests lowering the threshold, would inspire chapters to be more vigilant with keeping accurate books
  - Michael: most chapters are keeping track of their funds already; we’re trying to get our chapters to have something in place to prevent stealing
  - Tarak: the second proposed policy change, how does that relate to preventing stealing
  - Mark: if we lower the threshold, that would include a lot more chapters and increase Michael’s work
Michael: increases the burden on the national office; we should survey chapters to determine what appropriate thresholds are

Patrick suggests lowering the threshold; Board agrees

Barry: these policy changes ensure that someone is overlooking the finances and does not rely on trust to prevent stealing

Michael: the key is not having just one person’s eyes on the reporting; two people in each chapter need to have access so they can look at the accounts and bank statements; so maybe the treasurer and another member

Barry: suggests that the treasurer and one other member of the chapter review the accounts and sign the end-of-year reporting

Michael: should say that’s a requirement, and suggests that at least quarterly the president reviews the bank statements; justify these new policies, so explain to chapters the reasoning regarding the Palazzo incident

Barry: we talked about it at the business meeting at the convention

Kourtney: enforceable? how to gain buy-in from chapters?

Barry: we just have to rely on people’s good intentions; remind them to report if they don’t

Gerry: how to communicate this to the chapters?

Barry: send an email blast to chapter contacts, and put it in the policy manual and notify of updating the manual

- Board discusses the specific language of the proposed policy change; Board agrees on the following language for point three (3) of the proposed change: “If a chapter transfers US$1000 or more within a period of one year to a VFP chapter, single recipient, or organization, the transferring chapter is required to notify VFP’s Executive Director within 30 days of the final transfer date.”
- Discussion on how to apply policy to international chapters; considering three different kinds of international chapters; membership committee to discuss

Executive Director Michael McPhearson exits the meeting at 4:53 PM MST

Barry calls for Closed Session at 4:53 PM MST

Personnel Committee report

- Mark: presents the results of the staff evaluation of national office work environment and executive director

- Monique: last year, there was concern among the staff who are predominately women that they didn’t feel safe in the area of the office; was that looked into or resolved?

  o Mark: it was addressed in some form, and we asked what can we really do, other than move to another location

  o Monique: was that discussed or conveyed? Mark confirms it was not; Monique states that maybe the staff did not receive a response to this concern and it wasn’t taken seriously

  o Mark: I talked to Virginia about it and I remember that there was some concern that the only way to change it was to move the office to a different location
- Patrick: you can still develop a culture of safety without moving; the staff should be asked what would make them safer in the office, what steps to take; the other negative responses dealing with pay and work environment, we need to discuss for sure
- Mark: regarding the responses, the staff all have so much work to do now, they feel separate from each other; no specified break time for them to sit with each other and talk
- Kourtney: Excom met and Michael stated that he plans to include a cost of living wage for staff
- Patrick: we should give them a raise after receiving a large bequests; any time we can give them a raise, we should; investment in human value
- Mark: cost of living increase is officially 2.3%; Michael is recommending 3%

- Further discussion on staff wages, proposed 2017 budget
  - Patrick suggests five percent raise
  - Gerry agrees with a generous raise but suggests we do some research on current trends in wages among other peace organizations
- Tarak motions to approve a five percent raise for all VFP staff members for 2017
  - Further discussion
  - Board agrees to invite Michael back into meeting for further discussion

Michael enters meeting at 5:30 PM MST

  - Barry confirms acceptance by acclimation to elect all Excom candidates
- Joey briefs the meeting on Excom responsibilities and expectations
- Barry thanks the outgoing Excom members, Gerry Condon and Mark Foreman
- Patrick introduces idea of outreach to former Board members; power of affirmation; we should be more conscious with keeping in touch with former Board members; a lot of people in our former leadership are still active but not necessarily in tandem with our vision; had to personally struggle with feelings of being on the outskirts of decision-making; should get better at keeping in touch with former leaders; came to agreement with Gerry after discussion to find ways to keep people tight; call them alumni
  - Gerry: invite them to serve on committees
  - Barry: hold special event at convention banquet to honor former Board members
- Gerry: short briefing on why three Board members are not present at the meeting?
  - Barry gives briefing
  - Discussion on Board expectations and ways to approach Board members and prospects on responsibilities
  - Patrick: considerations on demographics of Board members and capacity to serve; how the Board can be proactive in providing necessary ways for Board members to serve
  - Gerry: not all Board members are able to be as engaged as others, especially younger Board members; give some special attention to them; talk to them more frequently
  - Kourtney:
  - Tarak: would be a real step forward for us; an allocation for childcare if possible
  - Michael: further comments on how to approach childcare for Board members
  - Patrick: further considerations for policy on missing meetings, including Board phone calls; needs to be some exemptions, but not every single month
Barry: clarifies policy on missing meetings
Tarak: would love to see all of the Board members, or most, involved in some kind of direct action that we would publicize to the rest of the membership; not a requirement; but if the opportunity comes up
Michael: agree, but connected to a real campaign so it means something real, not just feeling good
Mark: we have some momentum going, bringing in younger veterans, and female veterans, and women with children; maybe we need another committee if we’re serious about this; a group of us to make sure that any new candidates understand the responsibilities; hoping this wave continues to bring in younger veterans
Barry: when the nominations committee gets the names together, they can develop a one-page thing about duties and work of the Board so all prospects have; candidates speak at the business meeting at the convention; we can emphasize at that time that it’s a serious obligation that requires a lot of time; give them the chance to reconsider if they don’t think they can handle the time commitment
Gerry: add some of this information to the candidate questionnaire
Michael: agree, but we should have one or two Board members communicate with candidates and prospects; the nomination committee puts together a slate, and the Board members should use that slate to communicate
Tarak: the other side of the coin, we should think about the kind of support we can give to them
Michael: go ahead and schedule the January Board meeting very early, and then we can get that info out to the prospects before the election, so they understand that if they are elected, they should expect to attend the meeting and plan well in advance
Kourtney: Board should have an idea of what skills and talents we need filled on the Board, and how to communicate that to prospective candidates
Dan: don’t want to scare off prospects; don’t want to get too many things up in front; I think we already have the process in order
Michael: a balance has to be struck; the Board should be figuring out what we’re missing, and tell the nominating committee to look for it; we want to be open enough for anyone to offer their skills to serve

- Gerry: what about Peace In Our Times newspaper?; need some discussion with Tarak concerning going into the future and get assistance with the project
  - Dan: he has Becky Leuning helping now
  - Barry: he has help from Doug Rawlings and they have an editorial board
  - Michael: on specific issues, such as Syria, we may need a broader perspective; one of our advisory board members read the last newspaper, and is upset about the position on Syria; he sees it as a VFP position, though it’s not necessarily; PIOT is a bit like its own entity, doesn’t always reflect our definitive positions; when it shows one perspective, it should show the other as well to show our diversity in the organization
  - Tarak: Michael’s idea is good; when we have controversial pieces in the paper, we will consult with at least Michael and Barry; we have a very good editorial board; would like help and support to figure out how to distribute widely around the country; make it a national phenomenon
  - Barry: have we considered sending one copy each to big city libraries; do so until they say they don’t want it
  - Tarak briefing on cost of mailing copies of paper
  - Michael: good idea, suggest that we try to use our chapters; we’ve had chapters work to put books into libraries; they are our advocates who are already there, makes it more likely it will happen
  - Patrick: distribution to prisoners as well
  - Tarak: distribution to active duty military bases; get me the addresses and the confirmations, and we’ll send them out every month
  - Barry: San Diego library archiving the paper on microfilm
  - Gerry: if Tarak drafts the letter to send with the bundles, give them to chapters with ideas listed for distribution
  - Joey: PIOT can fall under the sub-committee as Communications
  - Gerry: don’t necessarily need to structure it that way
  - Michael: we periodically send materials to chapter contacts; we’re talking about national calls with members to talk about our future work; on a national call, have three or four things that we want to talk to members about, this could be one of them – distribution of the paper; follow up with a letter that talks about
it; we can talk about the speaker’s bureau and membership drive; they are more likely to retain this information if we talk to them about it
  - Tarak: follow-up is important; Secretary should add Action Items list or Follow-Ups list in the meeting minutes
  - Tarak: Board should take ownership of the paper

Barry breaks the meeting at 3PM MST
Barry reconvenes the meeting at 3:15 PM MST

VFP 2017 National Convention, Chicago, IL
- Barry: Music Festival organizer Miles MegaCiph states that he sent the music festival information to Jackson Brown team, awaiting confirmation from them
- Tarak: very good connection with Jackson Brown; very likely Brown is available for the convention dates; a chance for VFP to move into another modality, which is music and that’s powerful and add to the resistance; high quality music event for the public; build our reputation, promote our goals and mission; offer somewhat cheaper housing such as the hostel in Chicago so that our convention attendees will stay to attend the concert
  - Michael: weren’t able to get an extension on the room price for that Sunday evening at the Hilton Palmer House; when people book their rooms, they can ask to see if they can get the same price; depends on availability, could change over time
  - Tarak: make arrangements or suggestions for where people can stay that Sunday night, it will help draw people to the concert
  - Barry: in the future, if we are going to continue with music festivals on Sundays, we should extend convention into Monday
  - Mark: good idea to offer attendees to stay at the hostel for Sunday evening; how much lead time to give the hostel?
  - Michael: as soon as we can tell them something; it’s Chicago in the summer; how many rooms to reserve?
  - Tarak: can possibly block off a certain number of rooms? We do have to fill those we block off, could lose money
  - Gerry: when we visited them, they weren’t real concerned about having rooms reserved way up front, but we told them we would get back to them in January; the hostel is nice, and it’s close to the site
  - Barry: have to make sure we don’t fall under our room quota at the Palmer House Hilton
- Barry: have to discuss the Sunday parade/march organizing with Kids For Peace; talked to them last year, they thought Chicago is a great place to do the march; bring in local organizations and members; focus on women’s issues in the military; Urban Indian Movement headquartered in Chicago; Black Lives Matter in Chicago
  - Tarak: we all agree the march could be tremendous
  - Gerry: skeptical, just because of huge organizing and political effort it would be; additional tasks that we would be taking on; should be lead locally, with a coalition effort; people don’t normally march on Sunday mornings
Tarak: small or large, we still like the idea; who is going to make this happen? who will be on a committee to start organizing?

Further discussion on how to organize the march; Barry, Tarak, Monique, Frank Fitzgerald and Gerry to serve on parade committee

Barry: will talk to rep from Kids For Peace, see if she will also serve on the committee

Gerry: can see us stepping on toes, leaving people out, being accused of parachuting in and doing a march that didn’t respect certain aspects; we have to do this right, it’s a lot of careful work

Joey: associate member Kathy Kelly in Chicago would be perfect for the march

Michael: we have to reach out to the local activists who are dealing with the issues; or not; peace people tend not to be in contact with everyone on the ground; most chapters are not; every convention we’ve ever had, the local chapters have not been that tied into grassroots organizing; in order to pull this out, we have to reach out to those communities; the best person is someone in those communities who is networked with those chapters; there is a coalition in Chicago to reach out to; Black Youth 100 organization; Michael has list of Chicago activists from the Ferguson activities

Patrick: in terms of stepping on toes; Chicago is the base of VVAW; considerations to be careful with our organizing

Joey: do we have a good women’s movement contact in Chicago?

Kourtney: workshops geared towards women’s experiences in the military and use that to reach out to women’s movements to participate

Barry: considerations with the convention theme; make peace studies required in the schools, especially Chicago Public Schools since they have such a big military recruitment program

Barry to call Kids For Peace coordinator to gauge interest and make them feel comfortable in bigger arena; if you have a veterans peace organization marching, there may be a counter protest, but with kids marching, they may not do that

Michael: we sent the letter invite to Michael Moore, and followed up with an email to Moore; will follow-up with an email to his sister; so far I don’t see a response from him; ask the committee to send us more suggestions for speakers; we need to get right on the speakers for the convention; get invitations out; theme is Education Not Militarization; they need changes, such as put VFP national website on the logo; I like how the rifle is being broken, but it doesn’t say “no” anywhere, it’s just figurative; the theme needs to be reflected in the logo more; are we okay with the mono- or bi-color scheme; our logos usually have more colors to make it more lively and vivid

Brian: I like the yellow; important to slant the pencil at a more 45 degree angle so it’s more readable; the vertical format is difficult to read

Mark: the symmetry is powerful element; the angle may lose the symmetry

Michael displays the proposed convention logo on screen for the meeting to consider

Further discussion on revisions on the logo

Barry: we need the dove to be white, not black; black helmet
- Barry: briefing on ideas on how to run plenaries and workshops at the convention; need to finalize what the plenaries will be; opening plenary is standard – get local political sympathetic person, get a native community member in Chicago to present
  - Tarak: have an indigenous voices plenary considering Standing Rock and connections made; I have at least five people I spoke with to invite to do a full plenary; need to know that if we have six people, and that’s five hundred dollars each for travel, plus three rooms
  - Patrick: consider four people and two rooms
  - Barry: Urban Indian Movement in the city
  - Gerry: search for speakers should be focused locally and regionally; done in tandem with initial outreach for a march
  - Tarak: get these people in contact because we can imagine a future native VFP chapter; also a great native Dine woman singer
  - Gerry: Buffy St. Marie is an all-Indian band to consider for the concert
  - Barry: Taina Asili to consider for the concert

Golden Rule update – 4:15 PM MST
- Gerry: the GR has a companionship with the Phoenix of Hiroshima boat; a fifty-foot boat in the Sacramento River; new nonprofit set up to lift her up and get her sailing again; a filmmaker who is dedicated to the boat has done a lot of work and is going to the Marshall Islands in March; invited to meet with the president there; his own vision – Crossroads 2020 for big celebration conference with both boats sailing to the Islands; GR finally back home after 2016 voyage;
  - Michael and Gerry presents unreleased promotional video, Raising The Phoenix of Hiroshima
    - Online blog: http://phoenixofhiroshima.blogspot.com/
    - VFP Albuquerque chapter members Tom and Sherry Greacen enter the meeting
  - Gerry: presents further information on the project of restoring the Phoenix of Hiroshima peace boat; plans to sail along with the Golden Rule
- Gerry: further updates on Golden Rule organizing; just released newsletter, info on voyage; $4500 in donations came in during the last two weeks; the committee had a special meeting a week ago to decide on the future ownership of the boat, how to organize it; there has been some ambiguity in the ownership; we had a good discussion, and we voted 8-1 to turn over ownership to VFP; pending the completion of the Memorandum Of Understanding; spell out how to share responsibilities between the committee and National VFP; joint fundraising, sailing the boat, crew, etc.; decisions on where it will sail for the next few years; proposed to work on consensus between committee and VFP; don’t really see a lot of potential for conflict there; then it will be largely our responsibility to maintain the mission of the Golden Rule; the committee is prepared to take day-to-day responsibility for the boat; hope to expand the committee
to recruit people from VFP and other allied organizations to help us to continue to raise funds; Quaker involvement is absolutely essential; last couple years they have been totally involved and helped organize our tours, crew, captains, and they are on the committee; briefing on last year’s voyage; no doubt that we can be bigger and better in terms of publicity, funding, media events; potential VFP staff person will help work part-time on the GR; Helen Jaccard still working on the ground as the Project Manager; we’re in pretty good shape, and we’re excited; this year we’re talking about going to the Gulf States, potentially all over the U.S.; committee consensus is that we’re not quite ready organizationally and financially to sail to Cuba; instead, we’re planning to stay on the West Coast for 2017; travel down the coast, do a number of same events, end up in San Diego around August; Jim Summers active with Quakers and VFP San Diego proposing this idea for some time, we will flesh it out; have a group of young veterans or young kids in the San Diego area to have a special program with the GR, learn how to sail, learn nonviolence; we can raise foundation funds for this project; we might end up wintering the boat in SD; doing longer-range fundraising and organizing for a really powerful 2018 voyage

- Gerry fields questions and comments from the meeting on the Golden Rule
- Board discusses possible further funding for Golden Rule; current budget allowance; further influx of funds related to recent bequest
- Mark motions for VFP to donate $5000 from recent bequests to the Golden Rule committee; Brian seconds
  - Further discussion on VFP budget specifics
  - Barry calls for further discussion; none
  - Barry calls for vote on the motion
    - Barry confirms unanimous approval of the motion

Barry calls the meeting to order
Commence taking of minutes at: 1612 hours
1. Barry discussed an email received from VFP member Thomas Milcarek regarding an event being held in Washington D.C. March 31st.
   a. Barry informed he would let him know “we do not have enough information”.

2. Convention and Music Fest Update
   a. Michael briefed the board regarding Jackson Browne. Three issues have arisen
      i. JB has a different vision than VFP
         1. JB wants to focus on fundraising vs. VFP’s convention vision
      ii. Conflict in dates
      iii. JB prefers to work with someone they are familiar with rather than Miles
   b. Decision was made to have two music events – Friday, 08/11 & Sunday, 08/13
      i. Michael is scheduled to speak to JB’s representative Cree, Tuesday regarding what they wish to do. Should they decide they wish to do their own fundraising concert, they would provide the promoting, pricing of tickets
   c. Barry informed JB would use their own promoter for their concert; they may likely price tickets according to their previous shows.
      i. Separate concert allows a chance for VFP to attract a different demographic
      ii. Bring in sufficient funds as a fundraiser
      iii. Cater to a different audience
   d. Patrick asked “what happens if he is not available the 11th and 13th” and how much to book for a second date
      i. Michael responded VFP would do it another time
      ii. Both Barry and Michael answered about 12,000
   e. Mark asked if it is a fundraiser for VFP specifically? And what percent would be VFP’s?
      i. Michael informed that once everything is paid, the remainder is VFP’s.
         Michael wants to speak to Cree to find out the exact numbers and percentages
   f. Kourtney asked “What kind of influence would JB have on other acts?” “Would they determine other acts?” If so, we would need to have ample time to figure that out.
      i. Michael will find out if they need VFP to find an opening act
      ii. Per Michael, Miles is confident he can locate prominent musicians
   g. Barry at 1633 hours’ updates both Dan and Gerry on the discussion. Barry explained a decision needs to be made by the BoD whether it is okay to spend the extra money to book the second date for the Vic Theatre
   h. Dan asked what kinds of prices? Will it outprice our members? Will JB give VFP members a discount?
      i. Michael expressed it would be better to receive money from “outside” people.
      i. Gerry inquired how did we get to two concerts and how does it affect our convention schedule
      i. Barry explained the desire to have a diversity of acts and broad exposure to the public (beyond just VFP members); Jackson Browne probably feels more comfortable utilizing their own people and promoter; let’s continue with the original message of unity and diversity with a second concert; allow convention attendees to have ability to possibly participate in both concerts.
j. Gerry also expressed he would leave it to the Convention Committee to figure it out. Is the Jackson Browne concert in line with the convention? It is something that could realistically be held separately from the VFP Convention.
   i. Michael expressed that he couldn’t think of anything other than the march and the concert which would bring in outside people, who would learn about VFP.

k. Patrick expressed that “we do need to start figuring out how to organize in big ways”. If JB plays Sunday night, we want to plan ahead and allow individuals to plan.

   a. Joey noted the “pushback” received from membership accepting money from OSF. He also noted the recent bylaw change.
   b. Michael suggested a discussion would be prudent to examine any money received from OSF. Michael suggested a discussion could be had if OSF grants money to VFP.
   c. Adrienne noted the bylaw change as a result of the USAID issue; it would be “better to have the conversation before you have to cross that bridge.”
   d. Barry suggested it could be discussed further at the April board meeting.
Veterans For Peace

   a. Highlighted the appeal to increase the Zinn Fund money. Joey suggested a change the rule from 10% to 15% Mark proposed the Zinn Fund committee and the ExCom committee agree to make the increase. i. Patrick informed he would like to discuss the increase at the April board meeting.

ii. Kourtney asked for clarification for the proposal to possibly table the vote to increase the fund from 10% to 15%.

1. Patrick explained he raised concerns during the January board meeting – administration of it, process of funds – and would like to table discussion until the April board meeting.

iii. Mark volunteered to send all of the documents regarding the Zinn Fund to the board; explained it’s the ExCom which oversees the fund. Believes the committee has done a good job administrating the fund.

1. Adrienne asked if the increase would affect the current year (2017) awardee.

2. Brian explained the increase is high compared to similar organization. Brian also noted money is not in an interest-bearing account and its long-term sustainability questionable.

3. Barry asked if Mark would withdraw his motion due to the increased level of discussion and questions. Mark agreed and withdrew his motion.

v. The board will re-commence the discussion at the April BoD’s meeting.

10. Adrienne spoke to members of the Bylaws committee. Individuals would like to know the processes of enforcing it.

b. Joey supported Michael’s points regarding security technology

c. Adrienne asked if having an outline of what security process(es) would be used could help “assuage members” concerns.

*Barry left call at 1922 hours; Michael presided; Barry returned at 1925 hours and re-presided over meeting*
d. Brian stated he is curious to know what and how IVAW implemented their e-voting.

15. Brian reported on the Native Nations Rise March in Washington, D.C. Approximately a dozen VFP members were a part of the contingent. Approximately 5,000 people were
present at the rally. Four to five teepees were established and workshops, educational classes were held.

16. Michael discussed the upcoming conference in Cuba regarding military bases. Ann Wright has been asked to speak at the conference. She is also organization a veteran contingency. Casey is creating a webpage for veterans who wish to be a part of the group.
   a. Dan asked when the conference is scheduled.
   b. Tarak informed it is May 4th-6th

17. Barry referred to the Youth Empowerment Project (Part of VFP Chapter 67), which received an award via the Zinn Fund. He suggested VFP examine the program and whether it could become a VFP National Project. Requested board members review the report (emailed by Barry) and be ready for discussion at April’s board meeting.
   a. Dan mentioned a solidarity march; will have a Native veteran on his radio show; working with Ryan Holleran on Counter recruitment.
   b. Monique highlighted the
   c. Monisha noted she has been “off the grid” due to moving and re-settlement issues. Discussed a film highlighting Moral Injury. Asked about University/College VFP chapters. “War and Morale Injury” paper coming out this Spring. Psychologists for Social Responsibility.

5. Michael commenced his E.D. report.
   a. “The national office continues to be in transition”; Casey’s last day is May 13th but she will “continue to run the VFP Store due to her retail background” and the increased revenue.
   b. The VFP Mobile site is up and running.
   c. Both Michael and Helen have conducted three interviews for the full-time Golden Rule (GR)/Veterans Challenge Islamophobia (VCI) position.
   d. Michael expressed a desire to hire a veteran for Casey’s position.
      i. Patrick asked if individuals for the above two positions need to be localized. Michael expressed a desire to have them localized to strengthen face to face interaction and work stability.
      ii. Mark asked if the GR/VCI position is full-time. Michael responded it is.
      iii. Tarak inquired if individuals who are interviewed are willing to relocate. Michael informed one individual expressed interest to relocate. He is considering that individual for Casey’s position.
   e. Michael informed first round interviews will be in person; second round interviews will be skyped/facetime.
   f. Barry asked if the wage for the GR/VCI position is the same as Casey’s. Michael responded Casey’s position is more.
g. Patrick asked if the pay for the positions is coming from grants. Michael informed the GR/VCI position will be paid from remaining revenue from 2016 and fundraising. The staff salary is paid out of general funds.

h. Michael expressed “we have a little bit of a challenge to raise money” for the GR; both he and Helen have discussed options of how VFP National can assist with fundraising for GR. Michael stressed “we need to do more”

i. Michael noted we are at a “positive income” resulting from the Craigslist grant.

j. VFP received a grant from Magic Pebbles; received 2,00 from the Guacamole Fund; and 5,000 from Common Counsel Foundation (CCF).
   i. Barry asked for the contact information for the GF & CCF so he could send “Thank You” letters.

k. Michael mentioned he not heard from Ralph Nader regarding his offer to assist with the “Peace is Possible” Legacy bequest letter. Barry suggested both he and Michael initiate another meeting with him to possibly “reinvigorate him”.

l. Michael informed he is working on an appeal letter to be sent in May. The next one will be in July.
   i. Barry suggested Michael include the upcoming May 30th action in D.C. and possibly the link to Will Griffin’s video.
   ii. A VFP Associate “Thank You” letter will also be sent.
   iii. A special appeal to lapsed VFP members will be drafted focusing on the “urgency of the times”; upcoming projects/actions
      1. Kourtney cited the “intense conflict(s) which could ignite at any moment”
      2. Gerry added “that if we could demonstrate the things we are doing” in the appeal letters
      3. Monisha asked “do we actively measure our outcomes?” Michael stated “we kind of do” in a year-end letter. She also mentioned utilizing some metrics work and incorporating it into the work of VFP,
      4. Tarak asked if the measuring will incorporate descriptive.
      5. Kourtney stressed the importance of chapters being taught/shown the concept of a successful campaign via a workshop during conventions.

m. Barry informed a grant application for the Barret Foundation has been completed and will be submitted today, 27 April.
   i. Barry’s wife has volunteered to be a researcher for grants for VFP.

n. Discussion centered around posting the received grants on the VFP website, to “pump up” and advertise monies received from foundations to membership. Barry suggested recruiting VFP Advisory Board members to contact potential bequestors. “We need to get back to the BoD’s calling top donors” and “scheduling national conference calls with membership” regarding what we are doing to address the current crisis.

o. Michael wrapped up his report on the following: continue to update the website; hire for the two vacant positions; the upcoming convention; candidates for the VFP BoD’s; review the Working Groups; staff reviews; major donors and grant writing.
i. Kourtney asked if there can be discussion on grant writing and salary increase. Michael suggested general discussion can be done within the Personnel Committee and presented to the board.

p. Monisha requested the board examine the expectations required for incoming board members and potential board members. “We need to make participation equitable and accessible” to potential board members; “how can we modify and adapt?”.
   i. Michael highlighted a previous discussion on the issue and concerns Jason had expressed.
   ii. Patrick suggested the Nominations Committee could possibly address the issue as they look at potential candidates.

q. Michael discussed the retreat. Training will be Saturday and discussion will continue on Sunday. There will be team-building activities; campaign and program development; campaign and program objectives. Michael noted the desire to discuss the upcoming D.C. action and current and threatening wars.

*BoD commenced break at 1112 hours for ten minutes. Meeting re-commenced at 1142 hours*

6. Brian commenced the Treasurers report.
   a. The “Fiscal Sponsor” item is when VFP is a sponsor for another organization – i.e. IAVA, Military Families Speak Out.
   b. Michael explained that a letter of appeal has not been sent to the membership to request money for the GR, noting that when an appeal letter is sent for a particular campaign, those monies must be used for that campaign – disallowing for flexibility. He would like “us to diversify our revenue streams” and not rely on just the membership.
      i. Barry suggested a letter addressing the Nuclear Disarmament Campaign should include the GR.
   c. Gerry stated monies obtained from a specific letter of appeal for a campaign does not necessarily have to be used for that same thing.
   d. Brian explained he “sees both Gerry and Michael’s points of view”.
   e. Monisha suggested a general appeal letter via the website which offers “options for people to choose where their donation goes” – i.e. operations, GR, etc. - would empower members.
      i. Mark expressed concern regarding this idea because membership may not donate to “General Operations” since they may not fully understand the importance of this fund – salaries, operating costs, etc.
      ii. Kourtney highlighted diversifying “revenue stream” would hopefully remedy such an issue.
   f. Michael explained there is a list of individuals who are not VFP members who have supported the GR and cited the importance of developing that contact list.
   g. Mark noted “we need to establish how much we need to reserve each year” in case of a crisis to maintain operations.
   h. Dan asked if we could research how VFP could obtain a donation button on Facebook, which would possibly generate a new stream of revenue.
i. Monisha informed the Speaker’s Bureau is another way to obtain revenue - when the speaker receives an honorarium, VFP could request a percentage go to VFP.

j. Barry asked what are the expenditures on the Iraq Water Project. Michael informed he has a report which will explain.

*Break for lunch at 1225 hours. Meeting re-commenced at 1336 hours*

7. **Committee reports** continued.

   a. Barry informed he has not completed a Development Committee report. He informed Jim Driscoll is interested and available to come on board to travel and meet with individuals in New York to discuss VFP and the campaigns. Barry also informed he and Michael have discussed incorporating Dan Saint to assist with development issues, with minimal compensation to relating to plane fare.

   i. Gerry suggested inviting Daniel Craig (Craigslist), Daniel Ellsberg and others to visit the GR.

   ii. Barry would like to see BoD’s roles focus more on major donor calls and smaller fundraising initiatives; focus on a year campaign.

   iii. Gerry asked, “Do we know how many bequests we have?” Barry does not have the answer. He highlighted collecting the “intent” of a bequest and then following up with it.

   iv. Helen mentioned the spreading of ashes by members, filming the event and sharing it via social means as a possible fundraising avenue.

   b. Kourtney commenced the Membership Committee report and debut the new schematic he created for the recruitment campaign. He is working with Shelly to “streamline the reporting” – Post 9-11, demographic information. One of the new methods of reporting is tracking members immediately once they have lapsed to provide better accuracy. Kourtney asked these two questions: “How do we organize the tasks for a recruitment campaign?” and “What is a way to get the organization to cooperate on one campaign?”

   i. Kourtney will email the schematic to the board.

   ii. Kourtney gave an example that there are many members who have paid chapter dues but not VFP National dues “but are committed to their chapters”. One possible rectification is having the chapter president contact the member to ask about dues and engage in discussion about the importance of national dues and the necessity to support the national office.

   1. Patrick suggested a Membership workshop at the conventions each year to discuss recruitment strategies. Kourtney will be submitting a Membership development workshop for this year’s convention to begin addressing such issues.

   2. Dan said it would be important to find out “why someone may have left the organization” as a piece of data to collect.

   iii. Barry mentioned another tactic would be chapter visits by board members.

   iv. Tarak stressed the importance of “person to person” to recruit new members. Additionally, carrying the membership brochures and copies of Peace In Our Times (PIOT).
v. Discussion turned to the pending issue of the inquiry from individuals in Japan who wish to form a VFP chapter. Barry informed none of the potential members have proof of military service except photos. Michael noted the continued dilemma of “having international chapters”, explaining different countries have different requirements of proof of military service and may not have such records. He also highlighted the burden it creates on VFP National to navigate such barriers. Barry discussed an MOU which was signed with South Korea and VFP, explaining they are autonomous yet adhering to the VFP Mission. Patrick noted individuals from other countries may be contacting “us because they are looking for support to start their own thing”.

1. Tarak stressed his approval of international chapters and suggested a “small three-person committee” form to figure out what would be needed to establish parameters for potential international chapters.

2. Kourtney will present Tarak’s suggestion to the Membership Committee

vi. Dan suggested creating a virtual tour of the GR to appeal to younger veterans.

vii. Monisha suggested looking at student chapters and “is that something worth looking at?” Barry explained, “we’ve tried that” and the problem is turnover – when students graduate, there is often no one remaining to continue the work and keep the chapter viable. He noted one solution is student veterans affiliating with an established VFP chapter.

viii. Tarak suggested using the line “You’re always a Veterans For Peace”. Discussion surfaced about how does that relate to lapsed members and those who have not paid national dues. Michael noted the impact of spending money on people who are no longer interested in VFP and/or wish to donate. Barry added there three ways you no longer a VFP member: “you die; you’re expelled or you ask no longer to be a member”.

c. Patrick asked that both the Nominations Committee and Awards Committee present tomorrow when Joey arrives.

d. The Bylaws Committee did not have a report.

e. The Resolutions Committee should commence work around the end of May, when members begin to submit resolutions.

f. Gerry presented on the Communications Committee. The committee’s discussion centered on “How do we get more represented in the media?” He reported Colleen suggested the “open reader rates” need to improve, communications to chapters needs to improve and chapters need to improve on social media outreach. Gerry explained the need for a “Rapid Response Team”, increase press release statement response time. He also mentioned the Speakers Bureau and the use of letters to the editor (providing a sample Letter to the Editor for chapters to utilize).

i. Brian noted http://peacevoice.info which provides editorial reviews and feedback as well as sending submitted articles to nationwide publication sources.
ii. Dan suggested “preparing letter templates” to have ready to ease the pressure of having statements ready immediately.

iii. Mark asked “these seems like a lot of work for a small group of people, do we want to compensate them?” Barry cited it is part of the board work.

iv. Michael asked the board to think about “what are the top things to have letters of response ready” and let him know.

v. Barry remind about InDepth News and how they have published articles submitted by several VFP members.

g. Dan contacted Bob Krzewinski on the Resolutions Committee. They will start receiving submissions on May 1st. Michael will send the protocols to the ExCom tonight for review and have them posted by May 1st.

8. Barry updated members on the Convention. Col. Lawrence Wilkerson is approved to be the banquet speaker. Jackson Browne is approved and scheduled to perform on Sunday, April 13th as a fundraiser for VFP. Barry suggested “we honour Jackson Browne for being involved with VFP with a t-shirt and plaque”. Paul Chappell is approved for the “Peace is Possible plenary. Michael reported “Miles is moving things forward”. He is drafting a contract for performers; tax-exemption status paperwork has been filed to facilitate with lowering expenses. A letter has been sent to Rev. William Barber to request he speak at the public event. Michael reviewed the convention program.

a. Gerry suggested his “surprise at not reaching out to local” speakers in Chicago. Michael responded, “Rev. Barber is known nationally”.

b. Patrick asked “Given the theme of the convention, do we have anyone from the education community who is involved with the attack from the Trump Administration?” Patrick volunteered to approach the National Education Association (NEA) for possible speakers. Barry noted someone from the Chicago Public School system will be present.

i. Dan cited this was discussed during the meeting in Chicago and “doesn’t understand why we are discussing this now.” He also inquired if Col. Wilkerson will be addressing the education peace of the convention theme.

*Break at 1526 hours. Meeting re-commenced at 1354 hours*

9. Helen Jaccard commenced her report on the Golden Rule. Helen reviewed the GR Mission Statement, reviewed the GR budget, needed repairs and possible lawsuit.

a. Proposed 2017 theme: Ban Nuclear weapons! No New Nukes! No First Strike!

b. The 2017 voyage is planned along the mid to southern coast of California. An action camp is planned in the San Francisco Bay area. Helen explained “there is a vision of the GR and the Phoenix of Hiroshima – which is still underwater - to sail together” in 2020.

c. Helen requested any contacts and ideas be sent to her; she also expressed openness to travel and speak about the GR.

d. Barry asked how the process is going regarding crew selection and captain(s) selection(s). There has not been “much response from prior crewmembers”. She will be advertising in yacht clubs and boating magazines. Compensation to licensed captains will be offered this year.
e. Helen clarified she “would still like to be a consultant not an employee.”

f. Gerry informed discussion continues with VFP and the GR Committee to transfer ownership. He would like to see it completed by the embarking of the GR in June 2017.
   i. Barry explained the ExCom will continue discussion and present to the remaining board for vote; Gerry will abstain from the VFP board vote.

g. Monisha pointed out the VFP necklace, which is sold through the VFP Store – From War to Peace, Inc. based in San Louis Obispo - is made from copper cables. She suggested contacting the organization and initiating possible partnership to bring in revenue. Monisha volunteered to follow up with the company.

h. Patrick expressed “one thing that limits the Golden Rule is that it’s a West coast thing,” and what are the plans to expand and reach out to the east coast? Gerry acknowledged the difficulty in location but noted sending speakers to landlocked chapters, a virtual tour (originally suggested by Dan, see 7.b.vi). Patrick also asked “what kind of outreach” has been done with other nuclear groups? Helen noted she has not done a lot work in that area because of all the duties but would like whomever is hired for the GR/VCI position to incorporate it into their work. Barry asked what Helen’s vision for the GR/VCI is; she highlighted outreach, fundraising events, possible travel to organize events.
   i. Helen recapped the incident which occurred last season with the Washington County Sheriff when the boat was struck by the county’s boat crew in the water. The GR filed a claim which was denied; therefore, the GR has submitted a 30-day demand letter for repair to the Washington County Sheriff Department. Helen will supply updates as needed.

10. Both Gerry and Barry presented on the **VFP Disarm Campaign**. Barry stressed the need for a nationwide campaign focusing on No First Strike, the increase in military spending and the increased crisis with North and South Korea. Gerry recapped the Trump Administration’s active boycott of the U.N.’s Nuclear Weapon’s Treaty Ban Conference. Barry stated several countries have expressed thoughts that the formulation of a Nuclear Ban Treaty without U.S. participation would be stronger. U.N. negotiations are to be completed July 2017.
   a. Gerry reviewed the GR campaign slogan, the Lieu-Markey bill (No First Strike) and work with Roots Action to create a petition to be presented during the international veteran’s conference at the U.N. November of next year.
   b. Barry discussed Brian’s work to create a PowerPoint presentation to make available to chapters to use within their communities as an education piece regarding nuclear weapons and No First Strike.
      i. Utilize the VFP foundation search engine relating to United Nations and nukes to obtain monies to assist with the campaign.
      ii. Member nations of the U.N. to raise “our voice and say we are tired of war”. The conference is planned for November 2018 (100-year anniversary of WWI).
   c. Gerry motioned the VFP Disarmament Campaign to “Ban Nuclear Weapons! No New Nukes! No First Strike!” be voted on; Barry seconded. It
was unanimously approved by the BoD’s to have the aforementioned as the 2017 campaign.

i. Gerry asked, “What can an individual do to bring attention to the Nuclear Ban Treaty?”

11. Discussion turned fundraising resources. It was also discussed if GoFundMe should be used to assist with fundraising. Patrick noted it takes “courage to ask for money”; Dan expressed he raised 4,000 to assist with his Jeju/Okinawa delegation trip. Michael stated he is “getting a lot of pushback” from staff to use crowd-sourcing avenues; he suggested to have a few people examine the advantages/disadvantages (when and when not) to utilize such means. He also expressed his desire to use such methods only if there is a way to obtain the names of the donors and the percentage some crowd-sourcing companies take from raised monies is minimal. Brian suggested some people may be more “apt to click on a GoFundMe” link because of the reputation associated with it.

a. Monisha mentioned http://www.startsomegood.com as a possible viable source to learn crowd-source fundraising; “how dynamic your campaign is”. She also suggested organizing community art spaces, asking people to “create your vision of peace”, while “having discussions with people” – incorporating art with action.

i. Tarak asked if Monisha would “get the ball rolling” on the aforementioned; she will follow up with her contacts on the aforementioned.

ii. Michael stated the best way we “can be disruptive right now” is to talk with people we normally do not talk to and to intertwine the PAHPA message into the art spaces; “so that when you have to hit the streets, you have people to hit the streets with.”

b. Tarak mentioned the event in D.C. on May 30th and the need to raise money for it. He highlighted Will Griffin’s video and using it as a possible fundraising initiative.

i. Michael informed an email letter of appeal to lapsed veterans will include the May 30th event and a GoFundMe page will be created for the May 30th event, as a test to see what results are acquired and monies raised.

12. Barry mentioned Kourtney and Brian are drafting policy regarding delegations.

13. Barry would like to have the Bylaws Committee examine the e-voting.

a. Gerry asked “if there is any way to suppress a bylaw change to enact e-voting sooner”. Barry suggested a test could be done this year by offering membership the opportunity to “opt-in for e-voting” versus snail mail.

i. Michael mentioned there are members who will disagree with the board’s interpretation of the bylaw’s definition of “mailing” to include “email”.

b. Helen reminded the board that approximately three years ago she completed extensive research on e-voting and will forward the information to the board.
c. Kourtney asked “is there are other member organizations that do this?” *Michael noted IAVA does e-voting and will “dig up a report he completed a couple years ago and forward the information to the board.*
d. Michael reminded (and warned) the membership may have an issue with the expedited implementation of e-voting from the board.
e. Barry suggested “taking the temperature at the [Chicago] convention”.
f. Michael asked “what the urgency is” and asked the board to think about it. Barry highlighted the low voter turnout and participation this past election cycle.
g. Kourtney asked “What are the next steps?” Barry stated to examine the Bylaw and change the language, look into e-voting software and for board members to initiate conversations with fellow chapter members to prepare them for the change. Barry added he will write an article for the VFP newsletter addressing the upcoming change.
h. Monique cited that Tom Polumbo had written the “language piece and presented it” at the Berkley business meeting. *She will email the board the information from that period.*

*Meeting adjourned at 1810 hours; will reconvene tomorrow (Friday) at 0900 hours. *

*Meeting re-commenced Friday, 28 April at 0815 hours. Barry presides over meeting. *

14. Barry reviewed the days’ agenda and transitioned to discussing the VFP Memorial Day event in D.C. on May 30. Tarak discussed how the planning for the event commenced as a result of the VFP statement relating to “Trump’s budget”. Tarak informed the planned estimated budget is at 7,000 – 3,000 for travel; 2,000 for sound system/speakers; 300 for banners; 500 for miscellaneous items; 200 for water and snacks and the remainder for incidentals. Tarak reviewed the list of seven demands:
   a. Dismantle the U.S. Empire at Home and Abroad!
   b. Close all U.S. Bases on Foreign Soil – Bring the Troops Home!
   c. Decrease the Pentagon Budget – Money for Education, Infrastructure and Sustainable Green Energy
   d. Dismantle Corporate Control of our Government – End Corporate Personhood
   e. Dismantle the Electoral College
   f. Hold New, non-Corporate Funded Honest National Elections
   g. Dismantle the Prison Industrial Complex – Create Humane Methods of Rehabilitation

Tarak inquired if he should reach out to David Swanson from World Beyond War (WBW); there was consensus he should be included. Tarak will contact him. Tarak turned it over to questions and discussion.

i. Monisha asked if point g. could be changed to “School to military pipeline” Tarak responded “we could think about that”.

ii. Joey asked if the rental of porta potty’s were included in the budget; Tarak informed it is not necessary since there are plenty of bathrooms available throughout the venue area. Joey also noted point e. not being fully understood by the mainstream public; Tarak agreed with his observation.
iii. Dan suggested Rachel Clark as a speaker; Tarak said, “let’s think about it.” Tarak explained the seven demands are “are all basic things and can be expanded on…we can further explain points.”

iv. Barry stated, “we took an oath to defend the constitution and there’s nothing stated about the constitution…the concept of Peace at Home, Peace Abroad needs to be tied in.” He added, “people have to believe in their hearts Peace is Possible and then we have them…we need to weave it into the discussion.”

1. Barry asked if we could potentially reach out the organizers of the Women’s March in D.C. and coordinate a partnership for the VFP event. Contacting Linda Sarsour was suggested as a potential contact person.

2. Gerry pointed out what was “significantly absent from the Women’s March was an anti-war message.”

v. Mark asked if the event would be recorded. Tarak responded yes. He expressed a desire to have Chris Smiley record the event and would like both his airfare plus a he be paid for his work. Mark inquired where the money for the event is coming from and Tarak responded, “that’s a good question”. He mentioned GoFundMe, asking others for donations. One member donated 1,000 dollars. Tarak stated he would ask the board to cover the remainder. Mark informed, “we have a set procedure and we must follow it”. Tarak then stated “we won’t have to come to the board for supplemental funds.”

vi. Michael observed “we are talking about several different points…and seven demands is too many.” He also suggested point d. be shortened. He also cited we are not working with other groups who are doing the work – no intersectionality. “Do we know who are the leaders of that struggle?” As we move forward as an organization, we have to build connections with other organizations who are doing the work. Tarak responded he has made a point of including a number of individuals in the Indigenous and black Live Matter (BLM) movement. Michael’s last point was to invite a Muslim American veteran – Nate Terani or Vincent Simon – was suggested. He also highlighted Chris Smiley’s plane ticket would be expensive and perhaps have him perform the editing instead. “As far as funding, we should go through our usual channels”.

vii. Gerry highlighted the planning of the event involved many VFP members and congratulated Tarak for taking the lead on organizing the event and noted potential for it to become a huge event. Gerry added, “Ban the Bomb!” should be added to the list of demands and Tarak agreed.

viii. Monique suggested having a MASA organization as a sponsor and potentially a speaker. Monique will follow up with her MASA contacts to inquire if any organizations from the D.C. area are interested in sponsoring sponsor and for a speaker. Brian added a Native American organization as a sponsor would also benefit. Tarak informed Lakota Law Project is thinking of joining as a sponsor.
ix. Patrick stated, “fundraising is a key thing to making this a success.” And suggested we do a phone bank this weekend. Tarak informed a phone-bank is scheduled on Monday with the organizers of the event to fundraise.

x. Dan proposed we make a proposal to commit 20,000 to the event to ensure its success. Dan stated Jewish Voice for Peace, Physicians for Social Responsibility and Psychologists for Social Responsibility should be added as sponsors. He also suggested universities and colleges should be notified the event is happening; and including an Imam from a local mosque if possible.

   1. Dan requested if Michael could supply a letter or letterhead so BoD members could approach potential sponsors. Michael and Barry will supply this to the board.

xi. Joey agreed to Barry’s argument regarding the constitutional amendment but believes he would have to convince others as why the president has the means to declare war.

xii. Michael noted Sam’s Ride is scheduled the same week as the D.C. event and will touch base with Tarak on coordination.

15. Monisha discussed military rape culture and the fact the U.S. is the worse perpetrator of violence. She discussed this issue be included in the VFP-U.N. conference in 2018. She noted this subject and Military Sexual Trauma (MST) be included in the work “we do” and “part of the discussion” - tie in the “rape of the land and the intersectionality” of violence and the military.

   a. Barry suggested this discussion be part of the Women’s Caucus/plenary.
   b. Joey suggested women veteran suicide be included.
   c. Kourtney added he “would love to be a part of the effort outside of the women’s caucus”. He and Michael are working toward creating a Dismantling Patriarchy (DP) working group and would like to partner up and include this work in VFP.
   d. Michael expressed hope that these issues will be discussed and worked on in the organization stating, “the intersection of male domination and wars” in our society.
   e. Board members expressed gratefulness for Monisha’s presentation and for bringing the subject matter to the forefront.

*Break at 1040 hours. Meeting re-commenced at 1058 hours*

16. Michael commenced the **Sexual Harassment (SH) training**. He is looking forward to collaborating with Monisha and the DP working group with revising and making a comprehensive SH policy. He explained the importance of developing a committee to track and deal with such issues. Michael confirmed there is a policy but no formalized form and stressed the need to have a clear process. He also mentioned the policy should be visible on the VFP website and posted in VFP e-blasts periodically as a reminder.

   a. Kourtney noted on pages 27-29 of the Policy & Procedures, there is a form and explanation of the SH policy.
b. Tarak suggested creating a sub-committee via the Membership Committee to deal with re-examining the SH policy; Kourtney agreed. Michael recommended the sub-committee reach out to the Women’s Caucus to collaborate. Board members discussed micro aggression(s), sexual harassment and the avoidance of creating a culture of harassment; the context of our actions, words and non-verbal behaviour(s); taking ownership of our actions/speech and non-verbal behaviours. Michael discussed the importance of men accepting responsibility for their actions/words.

c. Monisha offered to help create some anti-oppression models and incorporate it into the training.

d. Gerry addressed the SH Complaint form is not user friendly and noted some errors where it possibly places the responsibility back on the person who experienced the harassment (violation). Board member unanimously agreed the form needs to be revised.

e. Joey suggested that each convention packet include the SH policy and the form. It was decided the Membership Committee will coordinate and hold the space to collaborate with the Women’s Caucus. The Personal Committee will focus on the staff aspect of SH. Michael suggested Kourtney and Adrienne connect to discuss steps on how to move forward. Monisha will post updates thru the VFP Women’s Facebook page on active steps being completed to revise the SH policy.

17. Barry updated the members on the Cuba delegation. Monisha needs a place to stay Monday night. Michael will rectify it.

a. Mark noted the Cuba delegation was not formally presented to the board – purpose of trip and costs – and expressed concerns about the treasury.
   i. Patrick stated both he and Ann Wright have paid their own costs.
   ii. Monisha briefed the board on the purpose of the delegation.

b. Gerry explained it “was never put on the board agenda” and therefore it was a missed opportunity to have more members participate.

c. Tarak informed he sent information regarding the delegation to the board “months ago”.

*Break for lunch at 1247 hours. Re-commenced meeting at 1340 hours.*

18. Gerry updated members about Climbers for Peace. The scheduled climb is tentatively scheduled for August 15th – 30th, 2017 in Iran. Climbers will be climbing Mt. Damavand, which is approx. 18,000 feet high. Per Gerry, although the climbers have expressed concern regarding the current U.S. administration’s attempts to institute travel bans and the upcoming elections in Iran for May 2017, they remain “positive”. Gerry mentioned there is one VFP member (Vietnam era from the Santa Rosa chapter), who may submit a request for Travel Funds. Gerry suggested upon their return, members of the group could travel to VFP chapters to present on their experience. Gerry closed by stressing the need to publicize the climb to membership and beyond. Gerry shared the website for the climbers, which is http://wwwclimbersforpeace.com

a. Barry mentioned it would be fruitful for one of the climbers to write an article to be written about the upcoming trip and forward it to him and he would submit it to InDepth News for possible publication. He also added that article could be submitted to PIOT.
b. Dan suggested publicizing it to Democracy Now! and having a table for the climbers at the convention to raise money.
   i. Michael noted “we generally have not fundraised at the conventions but it’s up to the board.”

c. Michael cited the issue with the travel ban and the possibility of “creating delegations to each of those countries” to bring attention to the issue if the U.S. administration blocks members of the group.
   i. Barry suggested VFP could “use its status as an NGO and raise cain” and “pressure the U.S. Mission at the U.N.”

19. Barry briefed members on Willie’s request regarding Justice for the Jax 5 and the incident which occurred three weeks ago. Two things are being requested:
   a. A statement addressing the incident; and
   b. Fundraising to assist with lawyer’s fees, jail costs, etc.
      i. Gerry informed he has spoken both to Willie Hager and Wells Todd, who are part of the Jacksonville 5. Gerry would like a letter written to the DA overseeing the case and mailed and a press release posted, both by Monday.
         1. Barry expressed concern regarding the “collusion charge” and the context of the statement.
         2. Michael explained that the letter can address the “police’s responsibility” in the incident.
         3. Patrick has also spoken to Willie and stressed the need for VFP to bring attention to the issue and noted “Willie has three felony counts against him.”
         4. Brian supports all of the aforementioned points. “We have a duty to speak about it”.
      ii. Barry agrees to all of the aforementioned points discussed and asked for a consensus; the board agreed. The Communications Committee will draft the statement (Brian, Monisha and Gerry will take the lead) and “fashion a press release” based off the statement.
      iii. Barry suggested encouraging members to donate to and is apprehensive about “opening our resources to fund legal defense”.
         1. Michael informed “we tell their story and encourage people to give”.
         2. Patrick stated “making a financial contribution empowers Tod and empowers Willie.”
         3. Dan pointed out a GoFundMe page has been created. He agrees with sending a financial donation.
      iv. Barry reasoned if we give money, “we have to be very specific that it goes to legal defense.”
         a. Barry said they are looking into the aspect of the colluders may be a part of white supremacist groups. He believes the Jackson 5 may have “good representation”.
         2. Gerry expressed that Willie’s “financial ask is a little over the top” and things are at a “different stage right now”. He does agree with a financial contribution as an act of solidarity and commitment and
a lack of response may be perceived “that we are not taking the problem seriously”. He is proposing 1,000 be sent. He also believes “we are not necessarily setting a precedent” if the board decided to send a donation.

3. Michael suggested we consider organizing a veteran contingent to show support and physically be present in Jacksonville, FL.

4. Joey asked if we have ever provided money for a legal defense. Members could not recall any specific incidents.

5. Kourtney suggested it “would be wise to go all the way - to create a legal defense fund” if we donate to the fund. He noted that it may be worthy doing so, because of the current political climate and chapter members organizing. The creation of a fund would also create some clarity.

6. Monisha asked if anyone has been in touch with the Jacksonville Progressive Coalition (JPC) to inquire if they are doing any fundraising to support the Jacksonville 5. There was no clear answer to her inquiry.

c. Gerry motioned 1,000 dollars be sent to the Jacksonville VFP chapter to support the Jacksonville 5; Dan seconded. The BoD’s unanimously supported to send the money.

*Break at 1447 hours. Re-convened meeting at 1456 hours.*

20. Barry introduced the VFP office staff and expressed appreciation for all of the work they do and continue to do.

Financially, things will switch to Quicken. The convention links will be up and going by next week. Shelly also manages the Donor Database which will be in transition in the late Summer.

i. She and Kourtney will be working together on the 6600 inactive individuals in the Donor Database.

1. Michael explained the contract with E-Tapestry ends December 2016 but a 45-day notice must be sent. It will be a 3-4-month transition.

v. She is looking at a mobile app specifically for the convention.

vi. Barry asked about the Minneapolis chapter and their anxiousness to have things decided upon for the 2018 convention.

b. Casey updated members on the following:
i. The Cuba delegation is good to go.

ii. New chapters in Japan
   1. Gerry suggested they do a self-documentation of their military service and submit it to the board.
   2. Barry will meet with Casey about it.
   3. Casey noted it “will be a challenge to communicate with them because none of them speak English”. Rachel Clark (VFP Lifetime Associate member) has been the primary contact. Expressed concern about “the longevity of a chapter without a veteran voice” and only associate members “speaking for them”.
   4. Michael supported Casey’s observation regarding the dynamic of VFP Japan with no communication/interaction with the veterans.
   5. Dan suggested finding an interpreter to communicate with Japan members.

iii. The other new chapter is VFP Dekalb, IL, which is close to the VFP Chicago chapter.

iv. Casey noted “there doesn’t seem to be a good relationship between VFP Okinawa and VFP Japan”.

v. Casey mentioned there has not been any movement forward with the formation of a VFP Australian chapter.

vi. There are members-at-large interested in forming chapters in Canada, Little Rock, NY/Penn area, Flagstaff and Racine-Kenosha. Casey explained at the moment, “we have points of contact [P.O.C.]” in each area.
   1. Barry suggested having a board member visit the POC’s in those areas and discuss VFP.
   2. Kourtney asked if there is a way to involve the Membership Committee to allay the burden on Casey.
      a. He also asked if Casey and Doug could be on the Membership conference call.
   3. Colleen suggested having info-sessions before they formulate a chapter. She also suggested having “chapter mentors” check-in with chapters to see how they are doing.
   4. Doug suggested committee involvement or projects for the members-at-large to keep them engaged.
   5. Tarak suggested including copies of the Membership brochures and PIOT.
   6. Mark suggested members-at-large could go to progressive organizations and they “often will find veterans there”.
   7. Michael informed there has been discussion to have the Membership Committee “take up the task of chapter formations”. The ability to have another veteran talk with another veteran is stronger. Michael noted all the suggestions mentioned above, are being done, the “problem is deeper”.

vii. Casey explained it is more difficult to fundraise via social media and should not be relied upon. She also noted “exploring options” relating to
advertisements on social media platforms such as YouTube, Instagram and Facebook to target individuals who are not VFP members.

1. Monisha asked “what is our cost for what we have now?” “Has Casey looked at other vendors and companies; and what kind of feedback does she receive from people who order?” Casey responded, union-based companies are preferred and is “open to looking at different companies”. Monisha offered to help in the aforementioned areas to explore options.

         c. Have a list of individuals who can speak to media
i. Collen has a list of basic speakers which was compiled from several years ago. She is re-working the list to represent true diversity.

Board members were introduced to a nonviolent dialogue acronym called L.A.R.A. and an active form of listening originating from a Chinese character Ting. Montague presented members with information relating to campaign and program planning - presenting materials from SCOPE Power Analysis and the Midwest Academy Manual for Activists - to assist our abilities with better executing future campaigns and programs to enable us to lead
Veterans For Peace to the next level. Although no concrete timeline was established as to when the board would touch base the received training, members of the VFP Disarmament Commitment have begun active planning utilizing the new tools.

1. Barry informed Jason Cardenas sent him an email informing of his resignation. Per Barry, Jason mentioned the commitment to work, family and a new baby take precedent. Jason acknowledged his inability to maintain consistency with attending board meetings and conference calls. He submitted Will Griffin’s name to be his replacement on the board. Barry followed up with Tarak, asking for his input on Will Griffin.

   b. Dan acknowledged Will’s competency and social media skills are above par and “supports Will”.
   c. Monique stated, “I support Will” but asked “if we are under any obligation to look at the individuals who originally ran to replace board members who have resigned”.
      i. Barry responded, “No”. He spoke with Michael and Tarak about their input.
   d. Patrick informed, “I’ve had the pleasure to spend a lot of time with Will…he is hungry for knowledge…he’s like a sponge”. Patrick also addressed Monique’s question, citing a previous example of when the board had to appoint the next candidate who had garnered the most votes because the nominated board member had decided not to accept the board position.

      vii. Mark Foreman - Yea
      viii. Tarak Kauff - Yea
      ix. Patrick McCann - Yea
      x. Dan Shea – Yea

   The board voted unanimously to have Will Griffin replace Jason Cardenas on the board.

2. Doug Rawlings submitted an email informing he would be stepping down as the VFP Poet Laureate. He nominated Jay Wenk to take up the mantle. There was discussion among board members via email and a majority of the board approved Jay Wenk as the next Poet Laureate. Also, Adrienne proposed – via email – to draft a policy (process) as to how VFP selects its Poet Laureate. Mark offered via email to assist Adrienne with the drafting of the process.
a. Michael confirmed he will make the appropriate changes on the VFP website to reflect the change.

3. Michael update us on the upcoming convention. “The convention planning is going very well”. Michael added “we are not where we want to be with people registering for the convention” but “our people tend to register late”. Reverend Yearwood is scheduled to be the keynote speaker for the public event. Danielle (last name unknown), has been hired to promote the convention. Michael is working on the workshop schedule and staff have been notifying the workshop presenters. The Women’s Caucus will present one mini-plenary versus the original scheduled two - Monique and Michael previously spoke about it and Monique made the decision. The Chicago chapter is working to contact additional individuals from the Chicago Public School system.
   a. Barry expounded on who will be presenting on the Nuclear Disarmament plenary.
   b. Four films will be screened at the convention.
   c. Shelly is in discussions with the hotel to have outside food and drink donated for the President’s Reception.
   d. John Spitzberg is organizing the Poetry Reading plus the poems to be included in the book.
   e. The closing plenary is a work in progress; below are a couple of the possible topics:
      i. Foreign Policy under Trump
      ii. Crisis in Korea
   f. Tarak discussed the organizing of the march. He has proposed the following theme: Education not Militarization; Support Our Communities and Children not War. He will be contacting Oscar Lopez Rivera as a possible speaker. The proposed time length of the march is 1-1.5 hour. If the theme is approved, both he and Ellen will design the banner for the march. Members of the Chicago chapter have walked and mapped out a route. Some discussion addressed the Trump building and possibly making that one of the stopping points; Barry noted the Chicago chapter investigated that possibility and discovered the security at the building would not permit it.
      i. Barry suggested chapters from “around the country” bring their banners, which would illustrate the demographic diversity from stateside and international.
      ii. Dan asked about Students for Peace.
         1. Barry informed they “are just not available this year.”
   g. Per Michael, Jackson Browne’s “people have taken over” the organizing, publicity, etc. for the concert. They have asked for a VFP presence at the concert – possibly a table – which needs to be organized. He also mentioned the hired publicist will be able to assist with media exposure.
      i. Dan asked, “What is happening there” regarding security and the threats to Jackson Browne and “will there be discount tickets for VFP folks?”
         1. Tarak informed White Nationalists have threatened Jackson Browne’s life; therefore, no backstage visitors will be permitted. He will check into the ticket discounts for veterans.
h. Miles Thomas – VFP member and organizer - updated the board on the scheduled Friday, 11th concert. Some of the performers include Maggie Brown, Watermelon Slim, Keywee Shahira (has not yet had a phone conversation), Brian Alwin (Acres to Miles), Sarah Mess (VFP member and poet), James Toller, Norma Manns (performing poetry), King Flair (poet), Jim Ratford and others. There will be an Artist Meet and Greet. Mile will send the board a link with all the performers names and their music.
   i. Some changes were made with pricing; Michael added, “we had to adjust it to the price we said it was going to be”.
   ii. Tarak asked Miles if “you would like to have this concert professionally filmed.” Miles assured Chris Smiley is lined up to do it.
   iii. Dan thanked Miles “for all the work he has done”.
   i. Will offered “recommendations for the closing plenary” if the theme is on Tensions with Korea.
   j. Tarak inquired if had been a decision on a theme for the closing plenary.
   i. Michael replied it was “Foreign Policy Under Trump” originally but the theme is “open”. Tarak stated, “we have a number of Advisory Members who could speak to foreign policy”.
   k. Dan asked about the logistics regarding board members’ arrivals and departures for the August business meeting and convention.
   i. Michael informed the board meeting is Wednesday, 9th, thus board members should arrive Tuesday, August 8th. Shelly will be scheduling the rooms for the board members. Barry added if board members are bringing their spouse/partner to either inform Michael or book their own room.

4. No Golden Rule (GR) update available from Gerry due to a GR event engagement.

5. Since Adrienne was unavailable, no information was available regarding submitted Bylaws and Resolutions from the membership. A separate board call will occur in July to specifically address submitted Bylaws and Resolutions.

6. The following individuals’ terms are up and will be running for the board:
   a. Kourtney Mitchell
   b. Monisha Rios
   c. Joey King
   d. Will Griffin
   Monique informed she has not received any email communications from Doug regarding potential candidates. Barry reminded two candidates per position are needed for a total of eight candidates.

7. Barry proposed to approve the minutes from the May board conference call. The board voted unanimously to approve the minutes.

8. Barry recapped the submitted proposed documentation for the formation of the Dekalb, Illinois VFP chapter. Eight out of ten VFP members are confirmed veterans.
a. Joey’s expressed concern of the bypassing of the Membership Committee for the second time. He noted a lack of consistency and asked, “Why we’re going through the board” as opposed to the Membership Committee (MC).
   i. Kourtney informed, “I see it as an unnecessary step”. Kourtney surmised the MC does not consistently know about charter requests adding, “What do we gain from that?” He also mentioned if the board is able to review and vote, he does not “want to add more work to the committee.”
   ii. Michael stressed “we need to have a discussion on how we move forward with chapter formations” adding, we could be more proactive with cultivating new chapters and conducting the research to ensure the individual(s) forming new chapters are grounded and trustworthy individuals. He suggested formulating a discussion with the committee with Michael and Barry on the call.

   1. Kourtney informed a call will be organized for July.

b. Barry proposed the board vote for recognition of chapter 179 as the SSgt Michael C. Taylor chapter in Dekalb-Sycamore, Illinois as submitted by VFP member Cameron Hallas.
   i. Joey asked, “We have always had someone verify it is okay with the family, have we done that?”. Barry read a letter submitted – with all chapter signatures – approving the name; but it did specifically state approval was obtained from the family.

   1. Michael clarified, “if it was a historical figure, we do not need permission, if not, we would make every effort to acquire permission from the family.”
   2. Patrick suggested adding, “pending approval from the family”.
   3. Barry requested the proposal be amended to read: The board votes for recognition of chapter 179 as the SSgt Michael C. Taylor chapter – pending approval from the family - in Dekalb-Sycamore, Ill.
   a. Monique recorded the votes as following:
      i. Barry Ladendorf, President - Yea
      ii. Kourtney Andar, Vice President - Yea
      iii. Brian Trautman, Treasurer - Yea
      iv. Monique Salhab, Secretary - Yea
      v. Joey Kingy - Yea
      vi. Monisha Rios - Yea
      vii. Mark Foreman - Yea
      viii. Tarak Kauff - Yea
      ix. Patrick McCann - Yea
      x. Will Griffin – Yea

   b. The board unanimously approved the formation of the Dekalb, Ill chapter. It was left unclear as to who would follow up with the chapter members regarding obtaining family approval of the chapter name.
9. Barry updated the board on the UU-VFP Conference. He met with the designated Lichtenstein representative and will follow up. He also spoke with two representatives from the Lubin Foundation regarding support for the conference. Barry will submit a letter of inquiry for financial support to the Lubin Foundation. Both Dan Saint and Jim Driscoll are contacting organizations regarding financial support for the 2018 conference.

10. Both Patrick and Will provided de-briefs of the UNAC conference. Eleven members of VFP were present at the conference. Several VFP members were a part of panels and presented. Per Patrick, people present at the UNAC conference were a “left wing crew”. Will informed “he was really impressed” and also suggested “we [VFP] support that coalition as best as possible.”

11. Joey suggested “an ad-hoc committee” be formed to examine the aspects of a formulation of a Peace Economy and what it would look like. He stressed “that we need to do it” otherwise how can Veterans For Peace translate its message?
   a. Barry noted the information Joey cited is referenced from a study called, “The US Employment Effects of Military and Domestic Spending” which was conducted by the University of Massachusetts-Amherst.
      i. Michael noted “if we are pushing for a peace culture and a convincing argument about a future”, we need to explain how people would fit into such a construct. He also noted it would be beneficial to have people assist with VFP with creating this argument.
      ii. Brian added, [Website] examines what it would like without a Military Industrial Complex (M.I.C.) and that they would be a good resource.
      iii. Patrick added, “We have to talk about the devastated communities and how they find relief.”
         iv. Barry asked if Joey – or any additional board members – would like to start working on researching data. Joey stated, “I feel like I don’t have the credentials”. Barry suggested any interested board members to email him if they are interested.

12. Monique requested the discussion regarding spirituality be tabled for the next call due to the desire to have a full discussion.

13. Will inquired if there would be any conflict with VFP being on a delegation with Jill Stein. Michael clarified the need to “be careful with our relationship with political parties”. As an individual person, he is fine.

Meeting adjourned at 1754 hours.

Agenda:
1. Two proposed bylaw changes and the 9 resolutions.
2. Convention update – postponed due to time
3. 2018 convention meeting update – postponed due to time

Commence taking of minutes at 1607 hours.

Barry reviewed the agenda

1. Adrienne reviewed the two submitted bylaws.
   a. Chapter Dues
      i. Per Adrienne, the Boston chapter expressed some displeasure regarding the term “voluntary dues”. Adrienne informed the “chapter was not thrilled” with her (Adrienne’s) response; therefore, Adrienne informed she would present it to the board.
b. Barry reviewed the original bylaw - Article 4, Section VII - then the new proposed bylaw.
   i. Joey thanked Adrienne and the committee for the time and research. He recapped some of the historical issues regarding the Boston chapter and fellow VFP member Nate Goldshlag. Per Joey, “basically they’re using his bylaw and trying to use it against him”.
   ii. Tarak stated the Boston Chapter informs new chapter members they must pay chapter dues but not national VFP dues. He does not support the actions of the Boston chapter nor their submitted proposed bylaw change. Tarak also suggested Barry have a discussion with them about their inappropriate actions.
   iii. Barry asked Kourtney for some historical perspective of the chapter since he was a chapter member for a period of time.
      1. Kourtney confirmed he was a part of the Boston’s ExCom for just over a year and never “got the impression” they were advocating for people to not pay National VFP dues. He suggested “making it clear” that members who pay National VFP dues but not chapter dues should not be excluded from chapters.
   iv. Adrienne informed the Boston chapter members “felt [Nate] should have recused himself from the discussion regarding the submitted proposed bylaw.
   v. Mark expressed some confusion regarding the actual bylaw versus proposed submitted bylaw change.
      1. Barry re-reviewed the information.
   vi. Gerry asked Adrienne for some clarity regarding not putting the proposed revised bylaw to membership for a vote.
      1. Adrienne informed the 2017 bylaw amendment was “overwhelmingly supported by the membership” and the current proposed one “conflicts with other bylaws”.
   vii. Michael offered to research the actual VFP vote of 2016.
      1. Barry Ladendorf, President - Yea
      2. Kourtney Andar, Vice President - Yea
      3. Brian Trautman, Treasurer - Yea
      4. Monique Salhab, Secretary - Yea
      5. Joey King - Yea
      6. Monisha Rios - Yea
      7. Mark Foreman - Abstain
      8. Tarak Kauff - Yea
      9. Adrienne Kinne - Abstain
      10. Gerry Condon - Yea

c. The board voted 8 Yeas; 2 Abstentions and 0 Nays to NOT present the proposed submitted bylaw to the VFP membership.
   i. Barry asked if there is protocol to write a rationale when the board votes to not support a submitted bylaw and/or resolution.
      1. Tarak stressed the importance of writing a rationale, noting the possible harm of not completing one.
a. Adrienne supported Tarak’s sentiments.

   ii. Barry requested Adrienne to complete the rationale.

d. Adrienne reviewed the submitted proposed bylaw regarding Electronic Voting. Since the original submission omitted important information, the Bylaw and Resolution committee elected to re-write the proposed submission, “unless the board received word the Maine statutes allow electronic voting” Adrienne stated.

   i. Joey informed “we could pass it here and not implement it”.

      1. Barry asked if he (Joey) supports the bylaw with the added proviso “that the board supports this bylaw until it becomes legal”. Joey informed he would.

         a. Adrienne informed she also would support it with the added above language.

   ii. Michael asked, “couldn’t we just add it under Section 2, paragraph E, ‘and must be in accordance with all legal obligations’?” in an attempt to satisfy concerns.

   iii. Barry proposed the board consider the revised bylaw sub-paragraph and all elements of it “to ensure it complies with which states VFP is incorporated; in accordance with the law”. He also reiterated the numerous conversations he has had with younger veterans who have inquired about electronic voting.

   iv. Mark asked if the National staff have the capacity “to make this thing run smoothly?”

      a. Michael highlighted “that once we figure out the process and put it into motion, it shouldn’t be much more” work.

   v. Monisha stated, “we cannot have our bylaws reflect something that is not legal”. She also noted Maine’s Nonprofit statute - 604, Section 2 – stressing a need “to have integrity in everything that we do.”

      1. Barry asked her if she would vote in favour of the language with the added proviso. Monisha expressed she would either vote no or abstain.

      2. Joey noted the other organization he is a part votes electronically using Survey Monkey and does not have an office staff.

      3. Gerry supports moving forward “rather than waiting”. He also added, “putting a bylaw before the membership without knowing its legality would upset the membership” and requested it be clarified before it goes to them.

      4. Adrienne suggested adding the language of “in the state which we are incorporated” to the bylaw, which would circumvent the citing of Maine specifically in the proposed bylaw change.

   vi. Joey suggested we postpone the vote until Chicago to ensure we have the correct language.

   vii. Barry re-proposed the board vote on the following - which would be in support of an amendment to Section 2 – “Section 2, as sub-paragraph f., Veterans for Peace will ensure all elements of this bylaw - to include electronic voting - are in compliance with the laws and

11. Dan Shea - Yea

The board voted 10 Yeas; 1 Abstention and 0 No’s in support of the amendment to Section 2.

2. Resolution 2017-01: Bring the Bells back to Balangiga, Samar, Philippines
   a. Gerry expressed a desire for more history and also asked what are the efforts being made to move forward, noting there was reference in the proposed resolution to a movement or anything thereof.
   b. Michael expressed concern regarding the Philippines new president (Duarte) and his known human rights abuses.
      i. Dan also agreed with Michael’s observations.
   c. Gerry asked if the board has the “right to ask the resolution [drafter] to strengthen the wording”. Michael confirmed the board does.
      d. Barry asked they - Dan, Nate and Bob (Resolution Committee) - address VFP member Aaron Davis to gain some clarity on the submitted resolution.

3. Resolution 2017-02: End the war in Syria
   a. Gerry stated, “this resolution is substantially the same resolution he submitted last year.”, which the board denied and was rejected by the membership in 2016.
   b. Dan noted, “he [resolution drafter] does mention the U.S., Russia, Iran and all others”, adding, “it would be better having a resolution stating ‘a path to peace’” in its body.
   c. Michael stated, “because it was turned down last year, does not mean he cannot bring it back.”
   d. Joey expressed support for the resolution because of the added language and the “Russian’s meddling in our election.”
   e. Barry suggested examining the resolution paragraph by paragraph.
      i. Gerry informed “what’s missing is the language of the overt and covert war the U.S. has waged since 2011 and regime change.”
         1. Dan expressed agreement with Gerry’s statement.
      ii. Barry asked if Andy Berman would agree to the proposed amendments and requested Gerry “at least try to ask him”.
         1. Gerry expressed a “highly unlikely” that Andy Berman would agree to any proposed resolution amendments.
2. Tarak asked if Gerry’s resolution passed; which it did. He also stated, “it’s kind of insulting with these simplistic solutions.”

iii. Barry proposed Andy Berman be approached and asked to re-write the proposed resolution, with the submitted board re-writes.
   1. Gerry informed United for Peace & Justice (UFPJ) has compiled a petition which “is much stronger” and “that VFP can get behind.”
      a. Brian suggested “it would be prudent” to take the suggested approach by Gerry.

iv. Barry proposed the board vote on whether to accept the proposed resolution with the proposed suggested re-writes discussed.
   1. Barry Ladendorf, President – Yea
   2. Kourtney Andar, Vice President-Yea

4. Resolution 2017-03: U.S.-Democratic People’s Republic of Korea Meeting

      i. Barry agreed with Gerry’s observation. He also expressed concern about the last paragraph referencing a “non-aggression pact versus a No First Strike”.
   b. Barry asked for a board member to contact Doug Loomis to clarify the aforementioned language and omit the editorial language. Gerry volunteered to contact him for a revision.
   c. Brian agreed with both Barry and Gerry, adding it “would help to get it under the maximum of 300 words.” The submitted resolution is currently at 308 words - which violates one of the parameters of resolution submissions.

5. Resolution 2017-04: Okinawa: Keystone of Peace
   a. Barry inquired if there were any issues with the submitted resolution; None were voiced. Barry voiced his support for the resolution and proposed the board vote on the submitted resolution.

   a. Gerry highlighted the call for an end of deportation and the repatriation of veterans.
   b. Dan noted “we could write a separate resolution for returning veterans”.
      i. Barry agreed with Gerry.
   c. Joey stated, “What the resolution asks is already being done.”
   d. Monique stated, “I know what you are saying Joey, but even though it’s the law does not mean it’s being followed”. She cited a current case affecting an Iraqi veteran in the Albuquerque area. Monique volunteered to contact Charles with the board’s suggested edits and input.
   v. Barry noted adding another “Whereas” to the resolution would be helpful.
   vi. Joey argued “what he’s resolving is already being done”. He also added, “the day you enlist, you are allowed to take the test.” Joey suggested the following language could be added to the proposed resolution: “Upon receiving of an Honorable Discharge, the service member immediately be granted citizenship.”
   vii. Dan informed what Joey stated is not happening, citing Zahid Chaudhry’s (VFP member) current case.
      1. Joey argued once more “it is already being done.”

   1. Joey will email Monique the exact federal statute.

   f. The board postponed voting on the submitted resolution to permit Monique an opportunity to contact Charles Powell and inform of the board’s suggested edits.

8. Resolution 2017-07: Stop U.S. Cyber Warfare Against North Korea
   a. Gerry “believes what is written” but there are various ways VFP could become involved versus “demanding a direct apology.” He also added, “we should be calling for an end to the war”, suggesting VFP would become “a laughing stock”.
   b. Barry agreed with Gerry’s points and would “rather see a proposal to start negotiations to end the war and a proposal for a peace treaty.”
   c. Michael asked for some clarification to both Gerry and Barry’s concerns regarding “being a laughing stock”. Michael noted that cyber-warfare is another method of war and asked, “Is it because we’re not dropping bombs” that it’s different?” Michael explained warfare comes in all shapes and forms “and to hurt people”.
   d. Gerry observed that the first demand of an apology “pushes a lot of buttons”.
   e. Barry asked if John Kim should remove the apology language from the submitted proposed resolution.
      i. Barry asked Michael to contact John regarding the apology language.

   b. Gerry cited, “it’s a huge misuse of the label terrorism” and suggested we support it.
      a. Barry supported Gerry’s input and observation.
   c. Joey informed “we shouldn’t be quibbling over Article 51 because they use it every year.”
   d. Barry supports the resolution.
   e. Brian cited the use of “aggression” which was used in the 2016 proposed resolution.
   f. Barry proposed the board vote on the submitted resolution.

10. Resolution 2017-09: Board Participation in VFP’s Annual Convention
g. Joey noted the issue with the 3 years’ stipulation, stating, “[the] dynamics which occur on the board” make it unrealistic for a 3-year tenure on the Convention committee.

h. Barry cited the issue with 3 years and the stipulation “convention or event management experience” be a qualification for sitting on the VFP board. He also informed the submitted resolution is more of a bylaws change.
   ii. Dan informed it was originally submitted via the Bylaws committee and was rejected.

i. Gerry stated, “it’s important to note where the resolution is coming from” and “sit down with them and identify some concerns they have”.

j. Monique agreed with Gerry’s observation and the importance of “at least having a conversation.”

k. Michael advised it “should not go back as a bylaw” because of the possible restrictive nature of bylaws. He also suggested having a committee of past Convention committee members to compile a handbook for future Convention Committee members to utilise as a resource. Additionally, once the writers of the resolution are informed of this implementation, they may withdraw the resolution.

l. **Barry and Michael will convene a call with Denny Riley – one of the writers of the proposed resolution - to discuss the aforementioned proposed solution.**

The board postponed voting on the submitted resolution to permit Michael an opportunity to contact Denny Riley and inform of the suggested development of a Convention committee handbook.

11. Gerry informed the Golden Rule (GR) lost its rudder. Another one is being re-fashioned and the GR crew “postponed the scheduled journey”. The GR is in the port of Redwood City in San Francisco Bay. Gerry shared it was “wear and tear” over the few years, but there was no traumatic event which caused the rudder to fall off.

m. Barry asked if “anyone has reviewed the insurance policy” to cover the cost of the repair.
   iii. Gerry stated there is some hesitation about filing through the insurance company due to “scrutiny”.
   iv. The crew is looking to do some crowdfunding for the 4,000 expected to be for the new rudder.

n. There is an event in Santa Cruz tomorrow but no others planned until after the Chicago convention.

Barry proposed a follow up call for the next couple of weeks to update the board on the Golden Rule and the upcoming convention.

Commence taking of minutes at 1606 hours

1. Barry re-capped the board’s discussion regarding the submitted resolution regarding Electronic Voting. Barry informed he examined Section 604 of Maine’s Non-Profit Voting statute and also called Maine’s Secretary of State, Bureau of Corporations, Elections and Commissions office; he spoke to Heidi Stokerson (a representative in the office of the Secretary of State). Ms. Stokerson discovered VFP had not filed its bylaws with them and as a result, “can do whatever [you] want” relating to Electronic Voting. Barry reminded those on the call, board members on the July 23rd call had voted in favor to add a “sub-paragraph f” to Section 2 of the bylaws. Barry informed Ms. Stokerson cited there would be no issue of instituting Electronic Voting thus Barry stated, “we don’t need to put that in there” – referring to adding sub-paragraph f in the bylaws.
   a. Adrienne noted “I don’t know if we have to vote to take it out, since we voted to put it in.”
   b. Barry asked if there were any objections to his proposal to omit “sub-paragraph f”; no additional input was given. He then requested the board vote on the original proposed bylaw regarding Electronic Voting.

      xi. Patrick McCann – Yea (Patrick voted once he joined the call at 1617 hours)

Barry informed he has had some discussion via email with both Nate and Gene of the Bylaw Committee. Per Barry, both have asked research be conducted regarding software, security issues and the possible work load that may be added onto the VFP National staff. He commented that no additional money should be used to conduct research on something which will be instituted.

2. Adrienne reminded fellow board members had voted not support the Chapter Dues bylaw during the July 23, 2017 conference call and to not present it to the membership. She also
reminded she had submitted emails of her drafting of the board’s rationale and will have it completed.

a. Tarak is not in favor of the bylaw but asked if it is “easier to let it come to the convention for a vote”, explaining the possibility of a lost opportunity for the board to supply clarification of the bylaw and the issues surrounding it to the membership.

i. Adrienne noted “It reads nicely” and if the membership doesn’t understand the consequences behind it, people may vote and approve it.

1. Kourtney agreed with Adrienne’s observation and informed “there would be a whole lot of issues if it passed.”
2. Tarak asked, “Is it our position to hold it back strong enough to hold muster?”
3. Barry expressed the need to explain it and to be transparent. He read the wording of the current Chapter Dues bylaw and read the wording of the proposed submitted bylaw change.
   a. Tarak noted, “It’s an attempt to weaken our current bylaw.”
4. Adrienne expressed her understanding of the Bylaw Committee purpose, is to ensure submitted proposed bylaws do not conflict with current bylaws.

   b. Gerry agrees with Adrienne’s argument regarding the conflict of the submitted proposed bylaw.
5. Tarak asked if the proposed bylaw is an amendment or a change to an existing bylaw.
   a. Barry explained it is conflict with Section 5 of Chapter 12.
   b. Tarak exclaimed his understanding and stated, “Now I get it”.
6. Patrick asked, “Who is putting forth this amendment?” Barry answered “the Smedley Chapter.”

   i. Adrienne requested someone from the board – not her – articulate the rationale to the membership. She stressed the rationale be presented as “the board’s decision, not the Bylaw Committee’s”. Barry agreed with Adrienne’s statement. It was not decided who (other than Adrienne), would present the rationale to the membership.

3. 2017-01: Bring the Bells back to Balangiga, Samar, Philippines
   a. Dan updated the board on the possible changes to the resolution. He noted Duterte was not mentioned in the original proposed resolution, “perhaps on purpose”.       i. Tarak stated, “I think it’s a mistake to get involved with this.”
      ii. Gerry mentioned if it were “coming from the Philippine progressive anti-war movement may be it would be a different story.”

Gerry explained before he and Dan could engage with him (Andy), discussion commenced on one of the VFP listserv groups among the membership regarding the submitted resolution. Gerry reminded he then emailed the board suggesting the body (board) draft a new resolution. Gerry also noted Monique’s (VFP Board Secretary) minutes from the July 23rd conference call incorrectly reflected the decision after the board had voted; rather, it was stated he and Dan would contact Andy Berman with the board’s suggested edits. 5. 2017-03: U.S. Democratic People’s Republic of Korea Meeting

         1. Joey mentioned a resolution referring to end to the Korea War may already exist.

         1. Dan suggested using the language of “a friendly amendment” to help with communicating and maintaining a good relationship with the new chapter.

8. 2017-06: Stop the Deportation of U.S. Military Veterans  
   a. Joey updated his email conversations with Charles Powell (drafter of the resolution) regarding the board suggested edits “did not go well.” He also reminded he had sent an email volunteering to draft a new resolution with stronger and precise language citing the federal statute relating to immigrant service members, reiterating, “the government is doing” what the proposed resolution is requesting.  
      i. Tarak stated, the “government is stonewalling” and noted an article which cited testimonies by immigrant service members and veterans.  
      ii. Monique reminded she emailed the article Tarak referenced to the board. She also reiterated that although there exists a federal law guiding the process for service members to become citizens does not mean “it is happening.”

Per the email, the resolution’s original “Therefore” statement read “Therefore, Veterans for Peace (VFP), meeting at its national convention in Chicago, Illinois, August 12, 2017”. Bob further explained, “it means that if [the resolution] is sent out to the membership to vote on in October, members are voting to confirm that at the convention…[b]ut you have to consider too, what happens if at the convention straw vote on Saturday the members turn down the proposed resolution? The whole resolution would be mute.” Bob explained he communicated this to Doug Lummis but Doug responded a “convention resolution” that “sounds more important than just a V[FP] resolution”, thus refusing to the omission of the resolution wording. Lastly, Bob cited “If the resolution maker insists on no deletion of the words “meeting at its national convention in Chicago, Illinois, August 12, 2017, the resolution is considered improper”.
         1. Barry suggested tabling the board vote on the proposed resolution to permit Michael an opportunity to follow up with John Kim’s apprehension to omit the wording of “VFP Convention resolution”.

10. 2017-08: Resolution on Normalization of U.S. Relations with Hezbollah
    a. Joey reiterated his disagreement with the continued use of Article 51 of the U.N. Charter, referencing “Member States” and that “Hezbollah is not a state”.

ii. After discussion, it was decided to schedule the in-person meeting in Minneapolis. Additionally, it was decided the ExCom will not meet Thursday, 26th.

g. Discussion turned to conference calls. The board agreed to schedule the remainder of the year’s conference calls to:
  i. Tuesday, November 21 2017 and Tuesday, December 12 2017.
  ii. The board also agreed conference calls would be 4:30pm (PST)/5:30pm (MDT)/6:30pm (CST)/7:30pm (EST).

h. Barry discussed the January in-person board meeting and the possibility of it occurring in the third or fourth weekend of the month. Joey requested the meeting be in a warm climate to avoid winter delays and storms. Gerry suggested San Diego due to the Golden Rule (GR) being in port.
  i. The board agreed to hold the January 2018 in-person board meeting in San Diego.

13. Both Gerry and Helen (Jaccard, VFP Associate Member) gave their report to the board on the Golden Rule (GR). Helen informed the hiring of Samantha (Ferguson, National VFP Staff) has been helpful. Sixteen events have transpired during the GR’s season. Sailing, nuclear issues and Non-Violence trainings were conducted. Helen recounted the story of the Phoenix of Hiroshima; and the work being conducted to “bring her out of the water”. The GR Committee is not involved with the project but is in support (solidarity) of it. The GR is able to “support herself with regards to food, diesel and moorage” but boat repairs – engine mount and rudder - have hampered the availability of money.
  a. Barry informed Helen is a part of the “Ban the Bomb” plenary.
  b. Joey inquired, “Where are we with ownership?” Both Barry and Gerry confirmed “we are a lot closer than we were.”

14. The U.N.-VFP 2018 Conference planning continues. Canada officially turned down VFP’s request to sponsor. Barry highlighted the need to “at least get one country” to sponsor.
  a. Will inquired if other countries were approached for sponsorship. Barry informed he has spoken to representatives of Lichtenstein and Costa Rica.
  b. Barry also mentioned once we obtain sponsorship, a staff person will be needed to staff an office as the conference grows near. This person would work out of the U.N.
  c. Mark inquired about a grant. Barry confirmed he is “working on that”.
  d. Adrienne suggested the “possibility of having a one-day conference” during the U.N.-VFP Conference.
    i. Barry expounded on the need for VFP to become more involved with work being done at the U.N. Ellen Barfield (VFP Member), has maintained a consistent and continuous presence there and has stressed the need for more VFP involvement.
    ii. Adrienne pointed out the need to “outline the various positions (a.k.a special appointments)” in the VFP Policy and Procedures (P & P) handbook.
1. Barry noted the Policy and Procedures handbook needs to be re-examined with possible re-writes.
   a. Kourtney suggested the board first review the P & P handbook; then the board “come up with a list of the items which need to be re-examined and supply those recommendations to the Policy and Procedures Committee.
      i. Barry agreed with Kourtney’s suggestion. There is no clarity regarding which board members are on the Policy and Procedures committee.
      ii. Joey suggested, “Assigning each board member two pages” and they recommend their changes.
      iii. Mark stated, “I can’t imagine it wouldn’t” turn into a long process.
   b. Dan suggested “we need another retreat and it’s a good place to go section by section.”
   c. Barry decided each board member read the Policy handbook, “make notes and we’ll talk about it in October.”

Discussion shifted to an email Michael received from Saif Khan (Executive Director of American Veterans Federation (AVF)), which is a sub-group of the World Veterans Federation (WVF). Mr. Khan extended an offer to have a board member sit on a newly formed steering committee called Peace and Diplomacy. Barry has asked Brian to join and Brian accepted.

e. Brian updated the board on the conversation he had with Saif. He has submitted his resume and once it’s reviewed, should be appointed to the committee. Brian expressed hope to extend VFP’s involvement and exposure with being a part of this new organization.
   i. Monisha asked if AVF has “an active role in conflict healing?” There was no known answer.
   ii. Joey asked if anyone knows “how we got onto this organization?”
      1. Michael informed maybe about ten years ago.

Monisha requested board members attend her scheduled workshop – U.S. Military Rape Culture in Society and stressed “it would be good to have board presence” to help reinforce the need to change the environment in VFP.

f. Joey asked if there would be representation of a male voice. Monisha informed she does have a male individual who will be a part of her discussion.

15. Kourtney updated the board on the Membership Committee. There is a pending approval for a new chapter based out of Fresno, CA. They have five members - one of the founding members still needs confirmation - but according to Casey, she is “99.9% sure” of the chapter formation. Kourtney motioned for the board to vote; Mark seconded. The board unanimously voted to approve the formation of the new chapter.

16. Adrienne reminded she would like to have a meeting with the staff, referring to the incident of the shooting a couple weeks ago. Barry agreed.

   a. Per Kourtney, “inside the numbers, we’re doing pretty good” but noted there has been a decrease in membership since June 2016. He cited congressional sessions, key times of the year and the economy as being possible contributors to the decrease of membership. The following are membership issues Kourtney highlighted:
      i. Increasing enrollment for Post-9-11 Veterans
      ii. Lapsed members
         1. Someone who has not paid for two (2) years; after that period, the individual becomes “Inactive”.
      iii. Three expulsions this year
         1. A VFP member present, inquired to the details of one of the expulsions. Kourtney explained it was due to the falsification of several pieces of documentation. The issue led to an investigation and then the decision to have the individual expelled from VFP.

4. Michael presented the Executive Director’s report. He noted the VFP National office continues to transition with personnel changes. *Casey Steinemetz’s position has not been filled because Michael “would like to hire a veteran specifically for that position.”* He reiterated “we continue to face growth and retention” issues, re-addressing the high number of lapsed members. Since the organising is in the red, work will be done to conduct two more appeals for the remainder of 2017 with the hope to recoup some of the loss. Some discussion turned to the Peace Fest. Kourtney facilitated the board conference call due to Barry dealing with a family emergency. Kourtney reviewed the agenda.

1. **Dan motioned for the Chicago in-person board meeting and Business meeting minutes to be approved.** Kourtney asked if there were any objections; none were stated. Monique noted she made the one correction of omitting Joey King from the board members present during the Chicago Board Meeting. **The board unanimously approved the minutes.**

2. **Michael updated the board on the Poor People’s Campaign (PPC) – its mission and purpose.** He noted the PPC utilizes MLK’s “Three Evils” speech adding a fourth “evil”, environmentalism. He explained starting in 2018 - beginning on Mother’s Day - through the Summer Solstice, dozens of Non-Violent Direct Actions will take place at state legislatures throughout the country. The main goal is to insert poverty into the “national conversation”. **Michael informed he will ‘reach out’ to the various locations of which he is aware VFP members are working on the PPC, to form a VFP-PPC Working Group. Out of that group, he will request someone to be “the convener” of the working group.** He noted, “we need to be able to help the campaign talk about the military” piece and effect.
   a. Monique supported Michael’s input and his idea to form a working group.
   b. Joey mentioned “he was thinking of ways we could get civil disobedience” through “voluntary poverty” actions.
   c. Dan asked, “Is this a VFP initiative?” and suggested the tenant rights initiative in Portland should be a part of the PPC.
      i. Michael explained the PPC is an “umbrella effort” and “does not belong to any one organization”. Monique seconded Michael’s statement. Michael supported Dan’s suggestion and encouraged he consider contacting a Portland organizer - if one exists.
      ii. Michael informed the PPC stresses the importance of following the foundation of the organizer basics of the PPC to maintain a level of consistency in messaging.
      iii. Mark informed Rev. Barber came to Milwaukee a few weeks ago and he spoke; which “went beautifully and there’s a whole lot of support.” He also informed “Milwaukee VFP is going to be very involved in the PPC.”
      iv. Tarak mentioned he had been in touch with the Kairos Center in the past and asked do “we have anyone in NY who would be in contact with them?”
         1. Michael informed none that he is aware of currently.
      v. Kourtney asked if there any additional questions. None were expressed.

3. **Gerry updated board members on the Golden Rule (GR).** The crew arrived in San Diego, with twenty-one events this season. He mentioned Samantha Ferguson assisted the GR
crew for several weeks. There has been “good media coverage” of the events. The crew also met with the San Diego Tribune upon docking in San Diego “today”. Ann Wright (VFP Advisory Board Member) accompanied the crew for several days; John Heuer’s ashes were also spread. The GR’s operating expenses totaled 16,800$ and had 18,700$ of incoming revenue due to sales. They also received payment for the accident incurred because of the Portland Police “ramming into” the boat earlier in the season. The GR will winter over in San Diego. The crew has several events planned in conjunction with the San Diego chapter, along with completing needed repairs. *Gerry mentioned a fundraising strategy is needed of which will be discussed among the GR Committee and VFP Board members.* The GR will be “exploring the idea of going to Cuba” and will be conducting conversations. He and Barry will be meeting to discuss and finalize the language regarding the memorandum and hopes “in the next month to get that done.”

a. Mark thanked Gerry for the report and asked, “When did the rudder go bad?” Gerry explained the boat was “docked two weeks” while the rudder was repaired. He added the “new rudder is working terrific.” Mark also asked, “Does the committee seem pretty definite to get to the Gulf next Summer?” Gerry responded, “several want a solid plan” before deciding on whether they will.

b. Michael asked, “How many email and paper appeals have you done this year?” Gerry reported three – two email appeals and one newsletter appeal – were mailed this year. Michael requested “the [VFP] National office to be the one to send out the appeals.” He also noted details would need to be discussed regarding how the funds would be maintained. Additionally, he informed just over 6,000$ plus Samantha’s and Helen’s salaries have been taken out of the VFP National budget.

i. Gerry asked, “Do you and I, Helen and Barry need to sit down and work out the budget?” Both Gerry and Michael agreed they would like to “maximize” the avenues available to fundraise by “not robbing other areas of the [budget] to pay for the Golden Rule”.

   1. Gerry thanked both Michael and Barry for their continued support of the GR.

ii. Kourtney thanked both Michael and Gerry for clarifying details of the budget relating to the GR. Kourtney asked, “What is your sense of getting [repairs] done relating to labor and cost?” Gerry responded almost 100% regarding labor will be free and “don’t anticipate more than a few thousand dollars” for material costs.

c. Gerry mentioned while they are docked in San Diego, the GR crew will meet with Deported Veterans chapter (Tijuana) members and Mexican activists.

4. Brian updated the board on the U.N.-VFP Conference and the three goals:

   a. Abolition of war;
   b. Elimination of nuclear weapons, supporting the U.N.’s Nuclear Ban treaty; and
   c. Impact of war on the environment and climate change

The committee met via conference call on August 28th. Several members are working on reaching out to island nations to inquire about sponsorship. Barry, Ken Barger (VFP Member) and Brian will be organizing the “strategic plan” for the conference. The committee will be meeting in person October 4-6th in New York. The next committee conference call is October
18th. He also noted Col. Wilkerson has offered to possibly facilitate contacting some connections in Cuba to inquire about potential sponsorship for the conference.

d. Joey asked, “Has anyone has contacted Costa Rica?” Brian responded “Yes…they were one of the first countries.” Brian mention Barry is possibly following up.

e. Michael asked Tarak “if he and Ellen have finished the brochure. Tarak mentioned “all the copy is done and just have to get a picture.” Tarak informed he and Ellen will have it done by this weekend.

f. Gerry suggested Nicaragua as a possible sponsor, mentioning that Brian Wilson (VFP Member) has “a close relationship with Daniel Ortega [President]” and could possibly act as an intermediary. Gerry also offered to ask a fellow activist – connected with the Phoenix of Hiroshima Project - for “his contacts” with individuals in the Marshall Islands.

i. Gerry also asked, “What [is] the vision, goal and expectations of this conference?”
   1. Brian answered, “to convene veterans internationally” and “to bring veterans together internationally.”
   2. Michael added, “to develop something that is ongoing”, citing that any relationships formed during this process with other countries, permits for greater relationship building in the event an international incident occurs. If an international incident were to happen, we could possibly utilize those established relationships to call for diplomacy versus military intervention.

ii. Dan asked for the date of the conference. Brian mentioned November 2018 but noted no specific date has been chosen.
   1. Joey asked, “Could we not have this conference on November 11th?” Michael responded, “I cannot definitely say no…and it may be more of a reason to have it on that day.”
   2. Tarak informed, “It is the one-hundred-year anniversary of Armistice Day.”

Kourtney noted forty minutes remaining for the board call and requested items 6 and 7 be postponed for a conversation within the sub-committee and the ExCom, to permit time to have a more detailed conversation. Tarak noted, “I am not on the protocol committee and suggested the committee members “run [the outlined protocol] by me.”

5. Kourtney asked are there any “pressing questions” to be directed to the Convention Committee. Adrienne noted Barry requested she be on the committee but has not received any follow up information.
   a. Tarak stated, ‘I think we should put the issue of the keynote speaker to the convention committee.” He also asked, “a straw poll” be taken to test the temperature of where the board stands on the issue.
      i. Gerry stated, “it would require a substantial discussion and table it for now.”
      ii. Kourtney asked, “Could we possibly organize an email vote?” pointing out the need to save time on the board conference call.
iii. Michael mentioned he sent an email highlighting his discussion with Rev. Barber about the possibility of him speaking at the convention. He also noted Brian’s email inquiring about asking Chelsea Manning to speak at the convention. Michael stressed, “we need to get information from our membership, along with the committee and the board…and should not [place] pressure on this current committee and host chapter to make a decision about whether we have a keynote speaker or not.”

1. Adrienne supported Michael’s suggestion to survey the VFP membership about having a keynote speaker.

2. Kourtney also agreed and asked if any board members had opposition to the idea. None were expressed. Kourtney suggested, “in the interest of time, I think we should explore that via email.”

6. Kourtney asked Tarak to update the board on the Korea statements. He informed the VFP Japan chapter “released it to the press and have been getting great coverage.” They also have been “giving talks”. Tarak mentioned his early idea of an “emergency delegation to S. Korea to assist with the THAAD system blockade”; that has since been cancelled. He informed, “Japan is asking us to do what we can here for diplomacy.”

a. Michael informed the statement is on the VFP website but is “unsure if Colleen sent it out to the press.” He will also speak to her about “how we can promote it.” Michael also mentioned “the board needs to place some emphasis on what is our overall approach to this crisis…getting it in sync with our Asia Pacific Campaigns”.

i. Tarak asked, “Do we have contact information for people [over there]?” reminding that John Kim (VFP member) resides in S. Korea.

1. Michael suggested organizing a phone call – including Will Griffin (Board member), Tarak Kauff (Board member), Doug Lummis (VFP Japan) and John Kim (VFP member, S. Korea) to discuss a plan moving forward and a broader “parallel response”.

ii. Gerry informed there would be “a much more powerful collaboration” if the VFP “Korea folks” were more involved…” putting the issue of nuclear weapons and nuclear in the forefront of people’s minds.” Gerry requested he be included on the conference. Tarak informed he will organize it; he also agreed with Michael’s points.

1. Kourtney supported Michael’s statement about being “organized” and “organizing our actions based on our Priorities List.” He added, “we need to leverage” leaders based in the United States and in policy-making.

iii. Dan informed “this fits right in with the U.N. proposal reaching out to the islands.”

iv. Gerry noted, “I think it’s clear we want diplomacy, a ratcheting down…a decrease of U.S. military intervention” in the region.

v. Michael suggested individuals who have been collaborating on statements - along with Tarak and Gerry – to discuss and meet (if possible), to clarify long-term goals and strategy on the Korea Peace Campaign and Asia Pacific Pivot Campaigns, ensuring they parallel.
1. Tarak agreed with Michael’s statements and noted the language barrier with VFP Japan. He suggested “bringing in Rachel Clark on the call” who speaks fluent English to facilitate with discussions.

Kourtney noted the time – which is 2000 hours Mountain Standard Time.

7. Brian updated the board on the World Veterans Federation (WVF). His first call is tomorrow, Wednesday, September 12th. He will also be meeting with Saif Khan (WVF) in-person during the World Beyond War Convention in Washington D.C.

8. Michael informed the board on the upcoming School of the Americas (SOA) Watch and the events which transpired that resulted in the date being moved to November 11th (Armistice Day). He informed VFP member, Mike Tork, who is the VFP liaison to the SOA Watch Committee was not a part of the decision-making regarding the event date change. Michael asked, “How can the board be more involved?” and support Mike Tork who is the liaison? He suggested reports/updates by Mike Tork on SOA Watch Committee meetings and possible more board member involvement.
   a. Gerry noted although it is “falling on Armistice Day, we can be in more than one place at once” suggesting we “approach this proactively.”
      i. Michael responded, “There are three days when our voice” can be amplified and “be visible in our communities”; highlighting the importance of VFP Chapters organizing Armistice Day activities in their communities.
         1. Gerry responded that the San Diego chapter has planned to organize Armistice activities and attend the SOA Watch Convergence.
         2. Kourtney agreed with Michael’s points and asked, “What does support look like beyond social media and e-blasts?”
            a. Michael answered he would talk to both Mike Tork and Colleen Kelly (Communications). He noted the Deported Veterans chapter has planned to attend the SOA Watch.
   b. Kourtney suggested expanding the discussion via email.
      i. Tarak suggested, “We can make the best of it by encouraging a massive return to Armistice Day by converging on the boarder.”
         1. Michael mentioned “it’s a great idea” but “we need to have people in their communities” organizing and talking about it.

Kourtney inquired if there was any additional information to add and asked if Monique (Board Secretary) needed any clarification on points mentioned during the call.
   a. She asked Brian for clarification on the three U.N.-VFP Conference goals, of which she corrected.

The conference call ended at 2023 hours (Mountain).

1. Barry commenced the update regarding the 2018 International Veterans Peace Conference (IVPC). He informed several committee members – Barry, Michael, Ellen Barfield, Chris Antal and Brian - met in person in New York from October 4th-6th to complete strategic planning and meetings for the 2018 Veterans Peace Conference. Michael developed a flowchart which illustrates committee members’ responsibilities planning and organizing the conference. The Republic of Vanuatu (a group of island nations near Fiji) has agreed to officially sponsor the IVPC. Barry and the committee finalized the strategic plan and wrote a letter to the newly elected President of the U.N. General Assembly – of which both the letter and the conference proposal – will be mailed.

   a. Tarak asked, “Can we get a hard copy of the letter hand delivered?” explaining he “probably gets a ton of mail.”

   b. Brian summarized the meeting with Ambassador Odo Tevi of the Republic of Vanuatu which “went very well.”
      
      i. Brian “is drafting a letter to Ecuador” to request for additional sponsorship.
ii. Dan asked, “When you send these letters out to these nations are you asking them to send their veterans?” Both Brian and Barry informed, it is a follow up item.

c. Adrienne expressed, “I hope we are letting our international chapters know about this.” and “Are we having other veteran’s groups or other organizations a part of this?”

   i. Brian informed he is “in discussion with Saif Khan of the World Veterans Federation (WVF). According to Saif Khan, WVF would not sponsor and/or endorse the conference due to the “varying views and disagreements” among veteran’s organizations who are a part of WVF regarding nuclear weapons and policy.

d. Kourtney asked, “Will this conference result in a joint paper to the U.N.?”

   i. Barry confirmed it would, in addition to a broadening of networking with other organizations and veterans’ groups.

   ii. Barry also informed VFP applied to the NoVo Fund; “They are looking for groups which think outside the box.” He additionally stressed the long-term goal of obtaining “ECOSOC status” (Economic and Social), which “gives you consultative status” within the U.N.

e. Dan asked, “Have we contacted Brian Wilson in Nicaragua?” Barry informed not that he was aware. Gerry echoed it would be beneficial to follow up with him.

f. Michael reviewed the International Veterans For Peace Conference Flowchart of Responsibility.

   i. An Event Coordinator position will be created to assist with organizing and logistics of the conference. Michael noted it may be a paid position.

   ii. Michael expressed, “The biggest challenge will be getting a diverse group of veterans” to attend the conference. He also stressed the importance of “having a chairperson to oversee the planning until we get an Event Coordinator…someone who is looking at this every day.”

Michael also reminded “we haven’t announced this to our membership”. It was suggested a conference call be organized for chapter contacts and/or presidents to call-in and ask questions, which would then facilitate the details of this conference to then be disseminated to chapters and members. He will connect with Ken (Barger) to expedite the information to the membership before the end of the year. Michael seconded Adrienne’s point regarding international VFP chapters and members.

g. Patrick asked, “Do you have a scale of an estimate of attendance and your cost”? and “Have you done any beginning discussion of a timeline? Michael informed he is working on the budget.

h. Will asked, “For promotion, when can we go public about this?” Michael proposed “by the end of November” and requested Will’s assistance, since he’s on the Media Committee.

   i. Dan expressed, “We need to do a video” which would help “promote and explain what the conference is about.”

   ii. Brian noted, “The language in the IVPC Brochure is very specific and can be referred to” when talking about the conference.

   iii. Mark suggested the video could be “used for fundraising purposes.”
iv. Tarak informed, “We have contacts within the country.” He also suggested “we look at the Indigenous people” linked at the U.N. as important organizing contacts.

i. Monisha asked, “Are there veterans from other countries involved with decision-making?”, stressing the need to be inclusive and broaden the “power structure”. She also suggested Johnnie Aseron with the International Initiative for Transformative Collaboration (ITTC) be involved. Barry answered, “It was a point of outreach to [WFV] to reach out to international veterans.” Brian expressed “optimism”.

i. Adrienne stressed the need to “reach out to [VFP] chapters for their input.”

ii. Kourtney seconded Adrienne’s point and asked, “What is the reach of our international veterans?” …we want non-VFP veterans to come to this conference.”

1. Barry confirmed the intent is to have non-VFP veterans to attend but noted there is the possibility to have a larger percentage of VFP Veterans in attendance due to the dynamic and organizing.

j. Gerry stated, “We would benefit to have an on-going discussion of our vision and political orientation. He also mentioned the need to recognize the conflict of the message regarding a U.S. veterans group organizing a conference and publicizing a brochure which “not once mentions the U.S. and its role in war making and that it should be.”

i. Michael suggested, “we should re-look the brochure.”

Break at 1045 hours; reconvened at 1109 hours.

2. Gerry commenced his update on the Golden Rule (GR). The GR is docked in San Diego Bay and the VFP San Diego chapter has been hosting the boat and members of the crew. He discussed the San Diego Fleet Week action of which members participated; previous Fleet Week actions were in Portland, Seattle, San Francisco and LA. The GR crew since being docked, has been conducting trainings and crew trainings the 1st and 3rd weekends. The GR Committee agreed to offer a 500$ monthly stipend to the current captain, who is “committed and there for the long haul.” Gerry informed several individuals proposed the GR conduct the “original voyage” to Japan. The proposal was presented to the GR Committee and received overwhelming support and “gave the green light to explore the proposal.”

Gerry outlined the vision below:

a. In 2018 remain in the West Coast and fundraising, in addition to commencing “serious training”.

b. Japan and the Marshall Islands in 2020

Gerry announced Helen (Jaccard) – who has been the GR Project Manager for two years - informed she “wants to terminate her position as Project Manager as of December 31, 2017. Additionally, the GR Committee and VFP are in the final steps of finalizing the MOU. The boat’s registration expires at the end of December 2017 and requested some expedition of finalizing the MOU, so the boat is registered in VFP’s name. Gerry explained the monthly fee of mooring the GR is 650.00$ monthly; just under 2,000 is remaining in the bank. A newsletter and fund appeal will “go out” in addition to a fundraising appeal organized in February 2018. Gerry
informed some “new fundraising initiatives” must be organized. Helen has requested the board approve 3,000 to cover costs for the remainder of 2017.

c. Tarak stated, “I think this is one of the most important projects VFP has and would like to publicize it more in “Peace In Our Times.” Tarak proposed, “Veterans For Peace funds be used to support this project…an infusion.”

d. Patrick proposed a fundraiser specifically in New York with Michu Okako (renowned astrophysicist and a veteran) and/or Yoko Ono (VFP Advisory member). Patrick informed he could research the people who “know Michu Okako” and enlist the VFP NY chapter for help.

e. Gerry mentioned three issues:
   i. A replacement for Helen;
   ii. Discussion regarding approval of the requested funds; and
   iii. The Golden Rule Committee examining the possibilities of sailing to Hawaii and the Marshall Islands.

f. Will informed www.Patreon.com as a possible avenue for sustained fundraising for the GR.

g. Barry asked, “Is there a way of going to the public dock?” Gerry informed the public dock is not free and boats can dock there a maximum of fifteen days per month.

h. Mark asked, “Who owns the boat? What is the Golden Rule Project?” Mark stressed, “we need a plan” referring to the financial stability of the GR boat and its monthly expenses.
   i. Gerry informed, “The pink slip is in the Golden Rule Project[‘s]” name and explained the necessity to finalize the MOU. He also explained “we don’t really have a fundraising program, we’re not writing grants.”
      1. Michael mentioned “I’ve talked about [fundraising] with the [GR Committee]” but has received in-depth feedback from them regarding this issue.
   ii. Gerry motioned the GR board is interested in the possibility of a Pacific voyage and exploring the possibility of a tour to the Marshall Islands by 2020 and will update the board in a few months.

Broke for lunch at 1200 hours; reconvened at 1130 hours.

3. Adrienne updated the board regarding Volunteers for Peace based out of Burlington, VT. They approached the Vermont VFP chapter proposing possible collaboration – i.e., younger veterans, the 2018 Peace Conference and broadening connections.
   a. Barry asked, “Do they have issues with what we’re involved with?” He also suggested coordinating a meeting with VFP to further discuss and explore possibilities.
      i. Kourtney stated, “I think it’s something we can involve the Membership Committee” and requested to be included in the conversation/meeting.
      1. Barry suggested Kourtney update the Membership Committee on Volunteers for Peace.
b. Although no formal motion was made regarding next steps with VFP, there was consensus for the board to “further explore” collaborating and forming a partnership.
   i. Michael expressed, “I hope the focus immediately would be to see what their international connections are and the possibility of assisting with the coordinating of the conference.” He also mentioned the possibility of “them lending their expertise” with providing delegations and voluntary service.

4. Monique updated the board about the VCI Campaign. She recapped Sam Ferguson has been working on updating and re-formatting the Veterans Challenge Islamophobia (VCI) Campaign website.
   a. Michael discussed the difference between now and prior that there is a stronger level of communication and connection. He also informed “the leftover monies from the [Open Society Foundation] OSF will runout” and “we need to find a means to fund her position.”
      i. Dan summarized VFP member Zahid Chaudhry’s case before the U.S. Federal Court.
      ii. Barry asked, “Is there a plan to file a report on how we spent the money?” Michael informed “Jim Driscoll is working on that.”
      iii. Gerry asked, “Shouldn’t we be doing more to raise the issue?”, referring to Zahid Chaudry’s case.
         1. Patrick agreed with Gerry’s point and suggested a “holistic strategic plan template” which can be utilized to assist with key issues.
      iv. Brian will draft a statement with Dan to address and raise awareness of Zahid Chaudry and his case.
         1. Kourtney suggested “as a companion piece to make a call out to sanctuary spaces who may be open to offering safety.”
   v. Monisha asked, “Has anyone looked into sanctuary?” Monique informed she had but did not find anything within the Olympia area. Monisha offered to “look into it”.
   vi. Adrienne suggested “Jeff Patterson with Courage to Resist” and contacting him to possibly build connections.

Stopped for tour of hotel at 1330 hours; returned to board room at 1459 hours.

5. Brian commenced his Treasurer’s report. He reported VFP membership dues and Major Donor numbers are higher than last year this same time.
   a. Tarak inquired about the three “Stop These Wars (STW) line items”. Michael asked if all three could be combined into one-line item; Tarak gave the okay. Michael stated, “What we want to do is have a fund for delegations.”
      i. Barry asked, “What is the advantage for having separate line items?” He explained separate line-items would show how each delegation spends its funds.”
b. Monisha asked, “How are we budgeting and how are we creating our line items, does that restrict our freedom to move money?” Michael explained, “These are restricted funds” designated for the National Projects and the “board can decide if those budgeted items can/should be moved to other projects”, if a project has ended.
   i. Monisha further asked, “What is our process to decide what moves when?” Michael answered, “A board discussion.”
   ii. Barry asked, “Is it the status of a National Project which determines which line budget items are shifted?” He added National Projects should be providing quarterly reports to the board.
      1. Monique informed she will request from the National Project Coordinators reports. Both Brian and Monisha offered to assist with this effort.
      2. Tarak suggested a “form” for individuals to complete, to make it easier to file reports. There was general agreement to his suggestion.
      3. Will stated, “I think we should convene in January and clean this up.”
      4. Kourtney suggested, “Maybe we should wait until we get the reports back in January” before decisions are made.
      5. Monisha stated, “I would like have the information on these projects before making a decision” and “How are we empowering our members involved with these projects?” and how are they in line with our mission?
   iii. Mark expressed joy about the Peace In Our Times budget “being at a surplus.”

c. Patrick motioned for line items, 6, 7, 8, 9 and 16 to be consolidated into a Delegation Fund.

d. Barry motioned to reconsider the previous motion to add line item #5. Patrick motioned for 5, 7, 8, 9 and 16; Adrienne seconded. The board voted unanimously for line items 5-9 and 16 to be consolidated into Delegation Fund.

Break at 1639 hours; reconvened at 1654 hours.

6. Kourtney commenced his Membership Committee report. he informed the Douglas County, OR group is the newest proposed chapter.
   a. Kourtney motioned for the new chapter be approved; Adrienne seconded. The board unanimously approved.
      i. Barry requested Kourtney send him the contact information of the new chapter, so he can send them a letter.
      ii. Kourtney will inform Casey of the decision.

Moved into Executive Session (ES) at 1705 hours; ES ended at 17:30 hours.
Reconvened Saturday, 28 October 2017 at 0916 hours.
Barry assigned members donor calls requesting they be completed by this weekend and an email confirming its completion to Barry.

7. Michael commenced his Executive Director’s report. The national office is currently two positions short – Casey’s position and an Administrative Assistant (AA). Shelly has received resumes for the AA position and both she and Michael will commence interviews in the next two weeks. The intention is to hire a replacement for Casey’s position in the new year and to intentionally hire a veteran. Helen Jaccard – current GR Program Coordinator – has submitted notice of her resignation from the position effective December 31, 2017; additionally, funding for Sam Ferguson’s position – GR and VCI Campaign, Event Coordinator – runs out at the end of December. Thus, funding for both positions must be acquired and a replacement for Helen must also be found. Although membership is in a positive trend, Michael noted “I am more concerned about expired memberships and those members not renewing…we need to have a more honest in-depth discussion about why we are losing members”. “We are in the red by 20,000 due to convention expenses, increased store inventory, lack of fundraising and lack of major donors”. Additionally, a 64,000 check was not cashed in September from the hotel; which will increase the negative loss to 84,000$. Two appeals will “go out” Black Friday and Giving Tuesday (November 28th). Major donor (MD) calls will be conducted by Michael, Doug Zachary and a couple board members to make the calls to MD’s who contributed in the last three years. The ballots have been sent to the printer and then will go to mailing; Collen will have the bylaw information posted to the website for members knowledge.
   a. Tarak commented, “There are some people who don’t know we have a paper!”
   b. Barry noted, “There are some chapters who do not encourage payment of national dues.”
   c. Adrienne suggested, “Veterans For Peace developing an app.”
   d. Gerry commented, “taking projects and resources to the chapters.”
      i. Michael agreed, “that’s right and why it’s important to have a clear strategic plan.”
   e. Patrick asked, “Was that an expensive hotel?”
      i. Michael responded “Yes…and I have to complete a more detailed report”
      encompassing detail expenses and comparing the costs of the last three conventions.
   f. Brian asked for clarification regarding the 25$ VFP member promotion to lapsed members. Michal informed, “lapsed members are however long they’ve been lapsed.”
   g. Dan asked, “What’s the advantage for Giving Tuesday?” Michael and Kourtney informed, “it’s the counter to Black Friday that non-profits have come to use” to counter Black Friday.
   h. Barry asked, “Do you have a cut off for the list [of Major Donors]?” Michael informed he is going to look at the timeline.
      i. He also asked, “Have we ever done any debriefing letters…feedback from the membership about programs?”
   i. Mark asked, “When do we want the end year appeal in people’s mailboxes?” Michael answered, “The first week of December.” Mark also mentioned the
importance of contacting members expressing, “these lapsed members are goldmines.” Michael agreed and reiterated the possibility of “leadership conducting calls”.

j. Tarak thanked Michael for the report and noted, the comment regarding “we’re not doing an adequate job” of relaying our message. He proposed “a mass mailing of one copy to each of our members including our lapsed members” to help inform and remind members of the work VFP is doing.

i. Michael agreed with Tarak’s suggestion “and we have to see how much it would cost.” He also mentioned “a long time ago we sent lapsed members a partial newsletter”, which helped reduce the cost of bulk mailing. He also suggested a “sample group” could also receive the mailing versus the entire membership.

k. Monisha stated, “Where is [Jim Driscoll’s] report to the board?” What is our return investment so far?”

i. Michael explained he was originally hired for the VCI Campaign and noted the amount of money he brought in for the campaign. “In January [2017] he was hired to help the board be more effective with fundraising…but now he’s not doing that anymore…he felt he was not being effective with that.”

ii. Monisha suggested “bringing on an intern…maybe asking Jim to assist.” She also asked, “Are we tapping into the talent within our membership?” Monisha stressed the need to be very specific with the “asks” and “needs” of our membership, further proposing “we have that conversation” regarding how we can engage our membership – suggesting the possibility of a virtual chapter.

l. Joey informed, “we would have to do bylaws change to have a virtual chapter…but we have considered it”. He also asked, “have we made an effort to contact second-year members…do we have the current number of people who renew the second year?” Doug calls individuals to renew, “but it’s not an [intentional call] to” renew for the second year.”

m. Patrick suggested, “a chapter to do a phone bank…because we are just overwhelmed.”

n. Kourtney reminded board members “we have a Membership campaign…and spread it out among the organization” and stressed the need to pursue the campaign as laid out and as presented to the membership. Kourtney will set up another committee call with members to follow up.

i. Michael suggested, “no later than January” due to the timeline.

o. Will stated, “What we need is ‘creative tension’” mentioning MLK. He mentioned the Peace Report which was created two years ago and looking “at creating a video of VFP’s work and message.”

i. Barry suggested “some of [Will’s] suggestions can go to the communications committee.”

ii. Gerry asked, “How would we do that?”

iii. Will is going to follow up with creating a proposal – budget, plan

1. Per Barry, “the implementation will be via the Communications Committee.”
a. Will offered, “How about we coordinate together?”

p. Adrienne stated, “I just really want to make a push for creating regional coordinators” explaining her work with IVAW…”and regional coordinators lighten the load.”

i. Gerry requested this “be added to the Sunday agenda”.

1. Barry asked, “What would be the job description?”

a. Adrienne explained, RC’s reached out to new members, connected members together, helped chapters get established, held regional meetings…and helped take the load off the [IVAW] National Office.” She also suggested “they could work in tandem with the Membership Committee.”

ii. She proposed sending bumper stickers/t-shirts; chapter kits – suggesting lapsed members receive a t-shirt when they renew.

1. Michael responded new members do receive a t-shirt.

iii. Her second suggestion is, setting up automatic membership renewals - akin to DMV, 2, 4-year increments.

q. Michael updated on the progress for merging both databases – Etapistry and Salsa – has been moved back 6 months.

r. Monique “thanked Michael for updating us on the merging of databases…and I would be happy to send an email to candidates on the January 2018 meeting, because I think it’s very unfair for us to expect new board members be present a few weeks after being notified of their election.”

i. There was agreement about this suggestion.

Break at 0957 hours; reconvened at 1010 hours.

8. Michael continued his E.D. report which focused on the Chicago convention. The $64,000 loss was due to banquet, board and speaker accommodations and audio-visual costs. Michael suggested both convention concerts “were budget failures.” Michael added the model needs to be much more collaborative and include local community organisations – i.e. “asking the local chapter to approach” other social justice groups to inquire if they would be interested in collaborating. “We have to be intentional and thoughtful”.

a. Barry stressed the importance of “knowing what events” in the surrounding community are happening during our convention(s).

b. Tarak clarified, “the Jackson Browne concert promoted Veterans For Peace…and Jackson Browne mentioned Veterans For Peace many times.” Additionally, “I think we really gotta start thinking outside of the box…retreat centers which are much cheaper.”

   i. Michael explained “we only have the conventions in cities where we have chapters…it helps to energise and bring attention to those chapters.”
d. Joey asked, “Do we have an indication why our [attendance] numbers were down?”
   i. Michael suggested Chicago as compared to Berkeley does not “have a lot of chapters nearby…and I don’t think we got on the calendar soon enough.”
e. Kourtney suggested, “knowing the numbers of other membership-based organizations regarding convention costs” – i.e. loss, revenue, etc. He also said other organizations “routinely ask us for money and [we] support their actions, why aren’t they coming out and supporting us and our convention[s]?”
   i. Michael agreed with Kourtney’s points.
f. Will suggested the processed Social Network Analysis (SNA) audit conducted proposed by Justin Loza, adding “I would like to contact him.”

   i. Michal stated, “We do have to determine our priorities.”
k. Dan “is opposed to the idea of a retreat center”, explaining the importance of reaching out to the local community and the positive impact the Public Event can have within the local community. He also mentioned the possible omission of the keynote speaker and “the idea to have a sustainer ahead of time from the general public”, which would help fund the convention.
l. Monique stressed “having the hotel information published as soon as possible so members can start making arrangements early enough.”
m. Gerry suggested “a wild idea, [such as] a peace walk in the future rather than a convention.”

Broke for lunch at 1208 hours; reconvened at 1335 hours.

9. Tarak commenced his discussion regarding the Veterans Rapid Respond Team (VRRT) proposal. His inspiration originated from Greenpeace and their peace boats. He stressed the positive impact delegations have had on “young vets.” Tarak has proposed an increase the Outreach Travel Fund (OTF) by 5,000$. A trainer for the VRRT has been
recruited and suggested the trainer be paid $1,000 for a “day and a half of training.” He has also reached out to both Maggie Martin and Matt Howard – of About Face - to increase collaboration. Tarak is proposing to “starting the project” now and follow up later with the completed plan. He stated, “I would like to have Monisha, Adrienne, Matt Hoh (VFP Advisory member) and About Face” a part of the process.

a. Monisha “enthusiastically supports it…and cultivating a culture of peace.” She mentioned fundraising and asked, “how can [I] contribute?”

b. Joey mentioned, “The line-item

c. Kourtney voiced his support citing it is “a prime recruiting tool.” He is “not totally on board with just starting the project…we need a strong strategic plan for starting projects.” He also added, “We need to come up with a list of priorities for the board and see how special projects fit into those priorities…we need a more formalized proposal and not just a letter.”

i. Tarak agreed with Kourtney’s comments.

d. Will noted, “the delegations are imperative”, naming the creation of both the Okinawa and Japan chapters.

e. Gerry stated, “I think it’s a great idea.” He also added, “fundraising is key…a fundraising package” would make a difference.

h. Patrick suggested a “Rubric” – an and planning document - assessment process to delegations.

i. Brian agreed with all sentiments and stressed the “need to have a comprehensive plan directed at:

2. He also would like to see selection criteria and “the need to be transparent”.
   
   i. Tarak stated the people who have been involved have “criteria”, citing the need to have “good physical, emotional shape.” He is in “favour of creating written” criteria.

iii. Brian once again requested an accounting of the OTF FUND for the last twelve months.”

1. Both Kourtney and Tarak with follow up.

j. Dan informed, “a lot of that criteria is shared and planned” among members of the delegation.

1. Monique discussed two points:
   i. The original board discussion during the January 2017 board meeting on a form for members to submit (or apply) for delegations. She noted the concern John Spitzberg (VFP Member) raised referring the possible bias of delegations and how people are selected. She stated, “We have to think about the optics of how this looks. We may know how individuals are selected but if we do not have a formal process that’, then the membership is going to believe it’s bias.”
   ii. Monique also stated, “I would like to see us complete the task [of completing the form] before moving on to another thing.”
   iii. Michael stated, “It has to be open and for everyone to apply…and we don’t know” what types of skills set our membership may have and “we have to rely on the organizational networks.”

m. Mark agreed with Michael and a non-bias approach.” Mark asked, “Is there going to be some limit for what VFP pays and the VRRT pays? Suggesting a “written percentage of what will be raised.”
   i. Tarak responded, “My goal is to make these delegations and VRRT self-sustainable.”
   1. Mark stated, “I just want to have a structure in place...a process that addresses the strategic plan and illustrates what we can afford.”
