

# EVERYBODY'S GOT A RIGHT TO LIVE

**JOBS, INCOME, THE RIGHT TO ORGANIZE, EDUCATION AND HOUSING**

## THE U.S. MILITARY TARGETS POOR COMMUNITIES

- Military is often offered as the only viable job to low-income communities.
- Funding of JROTC but not arts, social services or college counseling.
- DOD requested \$575 million for advertising to recruitment that is mostly focused on the poor.
- Enlistment is often presented as a path out of poverty.

## THE REALITY

- Many military personnel and their families are on food stamps.
- 400,000 veterans will experience homelessness in the course of a year.
- Enlisted personnel watch their benefits cut while contractors get paid more to do the same job.
- Spouses and families of wounded veterans end up having to leave their jobs to become unpaid care takers.

The VA shows us that the U.S. can have public healthcare that works. Everyone deserves access to healthcare, not just the wealthy!

## AN ALTERNATIVE IS POSSIBLE: REDISTRIBUTING FUNDS TOWARDS PROGRAMS OF SOCIAL UPLIFT CAN SHIFT OUR SOCIETY FROM A WAR ECONOMY!

The solutions to these issues are found in the vision of Rev. Dr. Martin Luther King, Jr., who called for a complete moral revolution of values in American society. Together, we can stop the root causes of poverty and provide a better life for people at home and abroad.
