Global Week of Action for Peace in Ukraine continues through Sunday!

This weekend wraps up the Global Days of Action organized by the Peace in Ukraine Coalition of which VFP is a part. We have been mobilizing together to end the war. Our demands:

• Stop the Killing on All Sides – Implement a Ceasefire Now
• Negotiations for Peace, NOT Weapons for Endless War
• Billions of Dollars for Human Needs, NOT for War Profiteers
• Nuclear Abolition, Not Nuclear War!

Please join us this weekend! There is a new flyer ready to download, print and distribute that includes the slogans being used for the mobilization and a QR Code pointing to the Global Week of Action landing page.

Gear Up for Armistice Day!
November 11, 2023, is the 105th anniversary of the signing of the World War I armistice that ceased hostilities on the Western Front, which took effect on the “eleventh hour of the eleventh day of the eleventh month” of 1918. With this instrument, nations still recovering from the dreadful nightmare of WWI, one of the deadliest conflicts in human history, collectively embraced peace as a universal principle and called for an end to all wars.

Japan Peace Speaking Tour Highlights Military Poisons

Pat Elder, one of the delegates on the 2023 Japan Peace Speaking Tour organized by Rachel Clark, which also visited Okinawa this year, lives 600 meters across a deep saltwater creek from a U.S. Navy base where carcinogenic firefighting foams were used in routine practice for many years. (The above photo shows Pat sampling seawater in St. Mary’s County, Maryland.) Pat’s and others’ concern about PFAS contamination led to the creation of Military Poisons, a project of the Women’s International League for Peace and Freedom’s (WILPF) Earth Democracy Committee that focuses on the military and its use of PFAS, and has begun to monitor the resulting environmental contamination around military bases at home and abroad.

Pat’s latest blog entry, dated October 2, reports on Japanese media attention on the issue resulting from connections made on the VFP tour: “Japanese media reports on PFAS contamination caused by U.S. military activities.” To keep up with this important work, people are invited to join the Veterans & Civilians Clean Water Alliance Facebook group (2.5 K members and growing).
