The opening session of the Merchants of Death War Crimes Tribunal on November 12 drew a large audience and was very well received. This session focused on Palestine. It was recorded and video has already been posted online. All segments of the tribunal and related webinar recordings are available on the Merchants of Death rumble channel.

Harvey and Jim also broadcast an abridged version of the opening session on their November 16 VFP radio show, highlighting the need, the precedent, and the facts about these war criminals.

**What I Want You to Know** – This award-winning documentary features post-9/11 Veterans who were deployed to U.S. wars in Iraq and Afghanistan and returned with compelling stories of betrayal. This truthful documentary about war deserves to be seen, and we are encouraging chapters to use it as an organizing aid for getting our name out there and bringing in new people. Watch the trailer and contact the producer to get started.

PIVOT TO PEACE IN THE PACIFIC

While we’re focused on the massacre in Gaza, the Empire never sleeps in other parts of the planet, and fortunately, a few of our members are paying close attention. Below are a few thought pieces: An excellent article by member Doug Lummis, a Marine veteran and renowned scholar based in Okinawa, and an interview with KJ Noh, a South Korean Army veteran and VFP China Working Group member, helping to explain U.S. moves in that part of the world.

Doug Lummis: The People of Okinawa Don't Want To Be Pawns In a US-China Conflict

KJ Noh: Will China-US relations back on track after Xi-Biden Meeting?

More Food for Thought from Mike Wong, facilitator of VFP's China Working Group: "[The speech given by Chinese President Xi Jinping] is long, but states very clearly China’s policies, which have been consistent for years since even before Xi’s presidency. If you want to understand the Chinese government's point of view of both the state of the world as well as US/China relations, this is a good summary of it. If I were to sum it up in my own words, it comes down to: Either we humans will all live together, or we will all die together. China prefers to live together. China doesn't care who's number one, as long as China can be peaceful, secure, and prosperous.”
