

Members of the Global Network participated in the 2019 May Day parade in Crimea, where 175 ethnic groups live.

KEEP SPACE FOR PEACE WEEK

70 Years Is Enough of NATO

**International Week of Protest
to Stop the Militarization of Space**

October 5-12, 2019

NATO was created to contain the Soviet Union which no longer exists. US/NATO military bases, war games, and weapons have been deployed to Russia's border in Eastern Europe. The continuing development of 'missile defense' systems and the planned deployment of space weapons are creating a new arms race and expanding warfare to the heavens.

Tensions are rising and a nuclear WWIII could start in a flash. In such a war, space technology would be instrumental in directing all military operations.

Hold a local event during 'Keep Space for Peace Week' to call for the de-escalation of US-NATO war preparations near the Russian border and a return to serious disarmament negotiations. #NoToNATO
