

## SAY NO TO WAR AND FLEET WEEK

### Fleet Week & Blue Angels Airshow: Promote Militarism and War Serve as a Recruiting Tool

“Of course everyone knows these planes are weapons of war, but few of us perhaps truly imagine the powerlessness of those under attack, imagine the victims of these huge and glistening and sun-kissed and biggerfasterdeadliertanyours fighters, these insanely destructive jets, the sheer unbridled terror, what it must be like for the people, the civilians, the families and neighborhoods and babies in strollers, every day, for months on end.” – Mark Morford, SF Gate Columnist

“The U.S. military uses the Blue Angels Airshow to bolster recruitment. The aerial acrobatics are designed to lure and recruit youth to serve in war.” – Veterans For Peace spokesperson

### U.S. Global Militarism & The Climate Crisis

Do you know that the U.S. is currently waging war in 7 countries and has over 800 military bases around the world? The U.S. military annually uses more fossil fuels and emits more greenhouse gases than 140 countries. If we are going to prevent the Climate Crisis becoming a Climate Catastrophe, we need to rapidly convert from using fossil fuels to using renewable zero carbon energy sources. Drastically downsizing the Pentagon Budget will help us achieve this.

### What Would Peace Bring Us:

Death and human suffering caused by perpetual war would be eliminated. Money saved from the bloated Pentagon Budget (>50% of discretionary spending in 2019) can fund a Green New Deal and other Social Needs for a Livable Planet.
